## Welcome to Device

Device gives you voice control and access to your cloud music plus voice enabled music shopping, weather forecasts and task management. This includes alarms, timers, to-dos, and shopping lists. Using Bluetooth, you can also stream music from your phone or tablet, or use Device as a speakerphone.

Getting started is easy:

1. Get the Device App.

2. Register the device.

3. Connect your phone, tablet, or laptop to your Device.

4. Connect your Device to your Wi-Fi.

Step 1: Get the Device app

a. Before you start, make sure that you know the name (SSID) and password of your Wi-Fi network.

b. For an iOS or Android phone or tablet, install the Device app from https://XXXXXX.com/start. For a laptop or different phone or tablet, use your browser to go to ttps://XXXXXX.com/start

Step 2: Register the Device

a. In the menu of the Device app, go to "Settings", then to "Add New Device".

b. Enter the Device serial number.

c. Enter your ZIP code to indicate your location.

d. The app will show instructions on how to set up your Device.

Step 3: Connect to your Device

a. Plug in the Device. The light ring will show a blue animation.

b. The Device will automatically go to setup mode. The blue animation will turn orange. If no orange animation appears, press and hold the Active button on top of the device until the orange animation appears.

c. When the Device app tells you to connect to the Device, go to the Wi-Fi settings page on your phone, tablet or laptop.

d. Select the Wi-Fi network starting with "DIRECT-dp-". If you don't see it, refresh the list. Enter the password "1234567". Your phone, tablet or laptop is now connected to the Device.

Step 4: Connect your Device to Wi-Fi

a. Go back to the Device app. It will advance to the next step after connecting to the Device.

b. You will see a list of Wi-Fi networks the Device can connect to. Select your Wi-Fi and enter the password for this network.

c. Click "Connect". The Device will connect to your Wi-Fi network. This might take a minute.

d. Click "Exit Wi-Fi Setup". Your phone, tablet or laptop will disconnect from the Device. The orange animation will stop.

e. The Device will establish a connection to the Device service via the Internet. This may take a while. When this is done, you will hear a message. Your Device is now set up.

Start using Device

Get Device's attention by saying "XXX" (for devices with a serial number ending with A to F) or "YYY" (for serial numbers ending with G to Z). The light ring will turn blue when XXX hears you.

Now you can say things like: "XXX, play some music", or "XXX, what's the weather in New York?"

To adjust the volume, say things like "XXX, turn it up", or "XXX, volume down", or rotate the top ring.

You can turn the microphones off by pressing the microphone button.

More examples of phrases to say

"Play Stairway to Heaven."

"Play songs by Michael Jackson."

"Play The Eagles on iHeartRadio."

"Play KCSM on TuneIn."

"What is playing?"

"Find new songs by Adele."

"Will it rain tomorrow?"

"Set a timer for ten minutes."

"Set my alarm to seven in the morning."

"Add eggs to my shopping list."

"Add visit grandma to my to-do list."

"Pair my phone."

Explore the Device app

You can use the Device app to control music, manage to-dos, timers and alarms, act on your shopping list, manage the device, and more.

Here are some examples:

- Set a timer under Timers & Alarms.
- Ask for the weather and then look at the Device app's homepage to see the extended forecast.
