**Subject:** Class II Permissive Changes under FCC CFR 47, Parts 2, 22,  
74(D), 90(I) and 95(A) – Licensed Non-Broadcast Radio  
Transceivers Operating in the Frequency Band 440 – 470 MHz  
(12.5 kHz and 25 kHz Channel Spacings).

**Applicant:** Icom Incorporated  
**Product:** UHF-FM Hand Held Transceiver  
**Model:** IC-F4GT-2 and IC-F4GS-2  
**FCC ID:** AFJIC-F4G-2

Dear Sir/Madam,

As appointed agent for **Icom Incorporated**, we would like to submit the application to Federal Communications Commission for certification of the above product for Class II Permissive Changes. Please review all necessary files uploaded to FCC OET site.

The original approved equipment was for 12.5 kHz channel spacing operation with 11K0F3E emission designation. The extended feature of the above equipment to include 25 kHz channel spacing with 16K0F3E emission designation was the reason for this Class II Permissive Changes application. Please note that there is no hardware change made. The only change made was the software to implement the 25 kHz channel spacing operation.

If you have any queries, please do not hesitate to contact us by our TOLL FREE number:
