Subject : FCC ID: AK8PCGABA1

Dear Mr. Dennis Ward,

Regarding to your comments for FCC ID: AK8PCGABA1 on June 9, 2003, please find the following replies;

1. We understood what you indicated. Please delete the Module Approval Letter.
2. We know that there is each limit for QP and Average in CISPR 22. In this time, we judged the measurement of Average does not need because the value of QP is far below the ones of QP and Average. This is based on your advice which you gave us as “a general guideline” in the comments. However, just to be safe, we have performed the worst point. Since we uploaded the revised test report adding the chart (graphed the submitted data)
3. Please find the “declaration concerning Antenna Specification” in the filing.

Sincerely yours,

Kanako Sanda (Ms.)

UL Apex Co., Ltd.
