Declaration
Letter_BEJEAT61413

Dear Chris,

Thank you for your kindly information.

I send the revised declaration letter.

And this device is for connection with a remote control device.
This device is only connected to TV for using the remote control device.
Even though this device has the USB port, the connection with PC does not work.
When we performed the testing, we have used the laptop for control.
But end user cannot use above configuration.

If you have any question, please let me know.

Best regards,
Will

Dear Harvey Sung,

You are listed as the Technical Contact for the above referenced TCB application. The following item(s) need(s) to be resolved before the review can be continued:

This device is a Computer Peripheral device per the test setup photograph. The application submitted only addresses the 2.4GHz transmitter portion. The label does not show the FCC logo for Declaration of Conformity (DoC) compliance. Please explain the compliance of the USB connected Computer Peripheral portion of this device (by either Certification application or DoC).

Also, this device is not a Bluetooth device, although the 15.247 compliance declaration calls this a Bluetooth device. Please confirm that this non-Bluetooth device complies with the 4 listed 15.247 requirements. In the future, please include a declaration of compliance to these Part 15 requirements for these FHSS type devices, but do not refer to the devices as Bluetooth devices unless they are Bluetooth transmitters.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee.

Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender. Revised documentation should not be emailed, but instead should be submitted through "Add Attachment" function at the UL-CCS website. Please have your Assessment Number and FCC ID/IC Certification number handy. You may use the following link: <https://cert.ccsemc.com/filing/>

Best regards,

Chris Harvey
