Re : PCS Licensed Transmitter held to ear
FCC ID : BEJLX550
Grant Date : September 14, 2005.

Statement of change to FCC ID: BEJLX550.

The hardware contained in the test sample submitted for this Class II permissive change is identical to the hardware in the original filing. The low power FM transmitter has been enabled via firmware. User software has been added to the phone. The PCB did not change. No EMC , SAR or HAC degradation is reported. Our engineers had some firmware difficulties causing the delay in the FM radio implementation.

If you have any question or need further information, please feel free to contact me,
I can be reached at espark@lge.com

Thank you.

Sincerely Yours,

A handwritten signature in black ink, appearing to be 'EPark', written over a horizontal dashed line.
