

Inquiry:

--Reply from Customer on 04/07/2011--

Dear Sir,

I thought the first was submitted.
I am sorry.

Our customer would like to get a certification of the wireless charging device.
- Frequency range: 110 ~ 205KHz
I would like to get your recommendation for this device for TCB approval.

Best regards,
Will

Response:

This will require Certification. TCBs can approve this device.
