Statement

We Motorola Mobility LLC, hereby declare that the device with FCC ID: **IHDT56VE1** can be capable of operating on all frequencies in the frequency bands 1710-1780 MHz and 2110-2180 MHz under the control of a base station. This solution is also controlled by Qualcomm chipset, Qualcomm confirmed this device will work in conjunction or under control with Base stations only. Without Network device won't be able to operate in this band.

For FCC, AWS licensees in the 1755-1780 MHz band must provide and maintain a point of contact at all times so that immediate contact can be made should interference against protected Federal operations occur.
