Description of changes for XL-200P/XL-185P Rebanded Class II Permissive Change

Harris wishes to submit this description of changes for the XL-200P/XL-185P radio.

1. Updated design of existing LTE configuration to utilize an updated LTE module with additional capability and new band support.

New LTE Module	FCC ID	IC ID
EM7511	N7NEM75S	2417C-EM75S

Harris will offer models with and without the LTE module installed, designated as follows:

- Models denoted by the suffix -NA (North America) will have the new LTE Module populated
- Models denoted by the suffix -L will not have the new LTE Module populated (available for field upgrade)

Thank you for your attention to this matter.

Thomas D Camper, Jr.  
Regulatory Manager
