

FCC ID: PF47577Q

Operation Description:

There are a on/off switch and a control sticks on the EUT, turn on the EUT, push up the control stick to control forward movement of the car, push down the control stick to control the backward movement of the car.

Circuit Description:

The brief circuit description is listed as follows:

- X1, Q1 and associated circuit act as Local Oscillator.
- Q2 and associated circuit act as RF Amplifier.
- Q7, Q8 and associated circuit act as modulation signal generator.

Antenna Used:

A permanent wire antenna has been used.
