

MARTIAN NOTIFIER

QUICK CONNECT GUIDE

Complete User Manual is available at martiannotifier.com/manual

Congratulations on the purchase of your new Martian Notifier smartwatch!
Our goal at Martian Watches is to deliver an outstanding product to make Life on Earth more convenient when used as a companion to your Smartphone.
Enjoy!

Getting Started

Make sure these items are in the box:

MARTIAN NOTIFIER

Micro-USB cable

Setting the Time

Gently pull out the watch crown (knob on right side of watch) and rotate it to set the time. When set, push the crown back in until you hear a click.

Turning Your Watch On

Press and hold **Bottom Left Button** for 2 seconds.

Turning Your Watch Off

Press and hold **Bottom Left Button** for 2 seconds.

Controls and Displays

There are **Two Buttons** on your watch... top left and bottom left. The watch crown, on the right, is used only to set the time and is not a button. The watch glass also functions as a button for some features.

1. Top Button

Launches voice commands (and dismisses them on iOS), accepts changes made in Martian Menu, and scrolls notification history forward.

2. Bottom Button

Turns watch on and off, accesses status bar, scrolls through Martian Menu, and scrolls notification history backward.

3. LED Indicator

Notifies users of events. Green: Incoming call and battery fully charged. Red: Low battery or charging. Blue: Incoming notification.

4. OLED Display

Shows incoming caller ID, text ID, and notifications. Displays battery level and other information.

5. Watch Glass

Tap to dismiss incoming notifications, dismiss notification history, and recall last notification for up to 5 minutes after it was received.

Checking Battery Level

With the watch turned on, quick-press* the bottom left button to view the Watch menu. The battery icon is in the far left of the display. If the white part of the icon is less than 50%, your watch should be charged more fully before pairing.

Charging the Watch

The charging cable can be plugged into your computer's USB port (or a power outlet via a USB wall adapter, sold separately). **Note:** Martian Notifier requires the special Micro USB cable included in the package*.

- A solid red light will appear when the watch is receiving power.
- A solid green light indicates the watch is fully charged.

Full charge is reached in approximately 2-3 hours from a power outlet, 3-4 hours when charging from a computer.

Battery Life - Martian Notifier allows 4-5 days of use time. The time piece will run for approximately 2 years on its separate battery.

* For quick-press, press button(s) completely but quickly – for a fraction of a second.

Before Pairing Martian Notifier

- Turn “ON” Bluetooth on your smartphone or other device
For iOS : go to Settings > Bluetooth > Toggle On
For Android : go to Settings > Bluetooth > Toggle On
- Download the FREE Martian Notifier App for your device (App Store or Play Store)
- Android: Turn “ON” accessibility for Martian Notifier in your phone (instructions!)

Un-Pairing Martian Notifier

Your MARTIAN Notifier can only be paired with one device at a time.

Once paired, if you wish to use your Watch with a different device, you need to un-pair it from the current device before pairing with the next device.

For iOS : go to Settings > Bluetooth > Martian Notifier > “Forget Device”

For Android : go to Settings > Bluetooth > Martian Notifier > “Unpair”

Pairing to iOS Devices (iPhone, iPad and iPod)

Start-up is most easily accomplished in the following sequence:

On your Martian Notifier:

Turn on your watch (**long-press the bottom button**). Before pairing, your watch battery should be charged to at least 50%.

On your iOS Device:

1. Turn "ON" Bluetooth on your smartphone or other iOS device.
2. Download the Martian Notifier App (Go to the App Store; search for "martian notifier"; Download "**Martian Notifier**" app to your device).
3. Open the app and go to the Home tab. Turn the "Tap to connect" toggle button to "ON".
4. After a moment, a 6-digit number will appear on your Martian. Type the number into the field that pops up on your device and tap "Pair".
5. If pairing is successful, "Paired to  Smart" will appear on the watch's OLED, and "Watch and app are connected" will show on the App.

Note: If pairing is not successful, turn watch off and back on, turn your device's Bluetooth off and back on, then start again at item 3 above.

Pairing to Android Devices

Start-up is most easily accomplished in the following sequence:

On your Martian Notifier:

Turn on your watch (**long-press the bottom button**). Before pairing your watch, battery should be charged to at least 50%.

On your Android Device:

1. Turn "ON" Bluetooth on your smartphone or other Android device.
2. Download the Martian Notifier App (Go to the Play Store; search for "**martian notifier**"; download "**Martian Notifier**" app to your device).
3. Open the app and go to the Home tab. Tap the "Start" button.
4. A pop-up will appear that says "Please turn on Android in your watch's settings".

(Continued on next page)

Pairing to Android Devices (cont.)

On your Martian Notifier:

Turn on “Android” on your watch.

- Quick-press the bottom button twice to access the Martian Menu.
- Quick-press the bottom button repeatedly until “Setup” appears.
- Quick-press the top button to enter the Setup menu.
- Quick-press the bottom button repeatedly until “Android” appears.
- Quick-press the top button to place a “checkmark” in the box.

The LED light will flash blue and the OLED displays “Pair from app”.

On your Android Device:

1. Tap “OK” to continue.
2. A pop-up will appear that says “Select a device to connect”.
Tap “scan for devices”.
3. A list of available devices will appear. Tap on “Martian Notifier”.
4. After a moment, a 6-digit number will appear on your Martian and on the App. If the numbers match, tap “Pair”. If the numbers don’t match, tap “Cancel” and tap “Start” to begin again.
5. If pairing is successful, “Paired to <your phone>” will appear on your Martian Notifier’s OLED, and “Connected” will show on the App.

Support

Our complete User Manual is available at martiannotifier.com/manual
