Re: GLR Southern California, LLC and its parent company H&H Group USA LLC Request
for Extension of Time.
IBFS File No. 325-NEW-20180614-00001

Dear Ms. Fronabarger

This letter responds to your March 1, 2019 request for a three-week extension of time to respond to the Information Request ("Information Request") issued to GLR Southern California, LLC and its parent company H&H Group USA LLC (collectively Applicants) on February 15, 2019. For the reasons discussed below we grant a four-day extension of time, extending the deadline for response to the Information Request from March 18, 2019 to March 22, 2019 to reflect the delay in mailing of the Certified mail until February 19, 2019, but otherwise deny the Applicants' request, including the request to narrow the scope of the questions in the Information Request.

The Commission does not routinely grant extensions of time.¹ The public interest, however, would be served by granting a four-day limited extension to reflect the delay in mailing the Information Request so that we can receive a full record in the proceeding.² We note that we allocated the initial response time by carefully balancing the public interest needs after taking into account the complexity of the case and any coordination that may be necessary for privileged and confidential information as well as any needed translation of non-English documents. Accordingly, we believe that this limited extension would allow the Applicants to respond fully and adequately without narrowing the request. We note that our decision to extend the time for the Applicants to respond does not prejudice any other action that the Commission may take on the Applicants' other pending requests³ as we take no action on those requests in this letter.⁴

With respect to the request to clarify the scope of the Information Request, first, please produce all information and documents as requested and included in each question. If some

relevant documents are retained and not produced, please indicate the relevant question and the reasons why the Applicants believe the documents responsive to that question should not be produced (e.g., eliminating exact duplicate documents from the production). Second, with respect to questions 24(a) and 24(b), the Information Request includes, and we expect the Applicants to provide, any information pertaining to consideration paid to GLR, H&H, or Phoenix and each of their respective affiliates or other third parties as specified in the questions (note that this should not be construed as a modification of the Information Request). Additionally, a list of station advertisers and program suppliers would be a useful document alongside other documents responsive to questions 24(a) and 24(b). Those documents written in a language other than English must be translated into English; automated or machine translations are permitted; however, the Commission retains the right to require a non-machine translation. Submit the foreign language document, with the English translation attached thereto.

Sincerely,
