Subject: El Salvador CTE, S.A. de C.V.

Steven,

On September 29, 2000, Concert Global Network Services Limited filed an application for an accounting rate change for IMTS service with El Salvador CTE, S.A. de C.V., file no. ARC-MOD-20000929-00159 (submission ID 2000000784).

The application indicates a surcharge of \$1.30 applicable to each of the three rate changess reported in the application. However, there is no explanation of the type of service covered by the surcharge.

Does the surcharge apply to received collect messages? If not, what type of service is covered by the surcharge?

Thank you for your assistance.
