Question 5 – Countries of affiliation

By this filing, Telstra Incorporated (“Telstra USA”) notifies the FCC of an affiliation with a foreign carrier in Thailand.

Question 10 – Late notification

As appropriate, Telstra USA requests a waiver of the requirement that carriers notify the FCC of foreign affiliations within 30 days after closing. Telstra USA’s failure to file within the specified timeframe was inadvertent. Telstra USA notes that it clearly qualifies for continued nondominant treatment on the U.S. - Thailand route. Telstra USA apologizes for any inconvenience resulting from its failure to file this notification in a timely manner.

Question 12.c.1 – Non-dominant carrier demonstration

Telstra USA is currently regulated as non-dominant on the U.S. – Thailand route. Telstra USA asks that it continue to be regulated as a non-dominant carrier on this route. Continued non-dominant treatment is appropriate on this route because Telstra USA’s foreign carrier affiliate lacks 50 percent market share in the international transport and local access markets in Thailand. Currently, this carrier: (1) controls less than 25 percent of the market; (2) competes against at least one other carrier that controls a majority of the international telecommunications market; and (3) lacks market power or facilities that would permit it to set market prices, control services or facilities, control market entry, or discriminate against unaffiliated U.S. carriers.

Question 16 – Appropriateness of continued non-dominant treatment

Continued non-dominant treatment is appropriate for Telstra USA on the U.S. -- Thailand route since Telstra USA’s affiliate on this route lacks market power in the international transport and local access markets in Thailand, as demonstrated in the answer to Question 12.c.1 above.

Question 17 – Foreign carrier affiliates that are the subject of this Notification

By this Notification, Telstra USA advises the FCC that Telstra USA is affiliated with REACH Communications Services (Thailand) Ltd., a carrier in Thailand. Telstra USA became affiliated with REACH Communications Services (Thailand) Ltd. on August 18, 2010. For the convenience of the Commission, a complete and current list of Telstra USA’s foreign carrier affiliations is provided in Annex A to this Attachment. This list includes all of the foreign carrier affiliates for which Telstra USA has previously provided notice to the Commission (in applications or notifications) except those affiliates that are no longer in service.

Question 18 – FCC authorizations and services authorized

Telstra USA holds international Section 214 authority to provide facilities-based and resold international telecommunications services. *See* File Nos. ITC-214-19970610-00320 (old file no. ITC-97-320) (facilities-based service between the U.S. and Australia); ITC-214-19970610-00321 (old file no. ITC-97-319) (facilities-based service between the U.S. and all approved international points, except Australia); ITC-214-19960610-00238 (old file no. ITC-96-321) (resold switched and non-interconnected private line services between the U.S. and all approved international points, except Australia); ITC-214-19960610-00241 (old file no. ITC-96-320) (international simple resale services between the U.S. and all approved international points); ITC-214-19960610-00240 (old file no. ITC-96-319) (international simple resale and resold switched and private line services between the U.S. and Australia).

Question 19 – Countries served solely through resale of unaffiliated carriers

Telstra USA does not serve Thailand solely through the resale of the international switched services of unaffiliated U.S. facilities-based carriers.
