Amended Foreign Carrier Affiliation Notification

Pursuant to Section 63.11 of the Commission's rules, AT&T Corp. and the other U.S. international carrier affiliates of AT&T Inc. listed below (collectively, "AT&T") hereby submit this foreign carrier affiliation notification to update the Commission's records concerning their affiliations with carriers in Japan. The other U.S. international carrier affiliates of AT&T submitting this notification are:

ACC National Long Distance Corp.
Alascom, Inc.
AT&T of Puerto Rico, Inc.
AT&T of the Virgin Islands, Inc.
BellSouth International, LLC
BellSouth Long Distance, Inc.
Centennial Communications Corp.
SBC Long Distance, LLC
SNET America, Inc.
SNET Diversified Group, Inc.
TCG America, Inc.
TCG New Jersey, Inc.
TC Systems, Inc.

AT&T notified the Commission of this affiliation in a Foreign Carrier Affiliation Notification filed on March 25, 2011. AT&T submits this amended notification to provide additional information in response to Question 21.

Answer to Question 10

This notification does not result from an acquisition. AT&T submits this notification to update the Commission's records to include AT&T Japan LLC as one of its foreign carrier affiliates in Japan. AT&T Japan LLC holds a notification license authorizing the provision of resold telecommunications services, but makes all customer sales through its wholly owned subsidiary, AT&T Japan KK (formerly AT&T Global Network Services Japan KK), which also holds a notification license authorizing the provision of resold telecommunications services. AT&T Japan LLC will shortly begin contracting directly with customers, and AT&T Japan KK will cease all sales activities.

Answer to Questions 12 and 16

AT&T certifies that Japan is a WTO member country.¹ AT&T Japan LLC does not own facilities in Japan.

¹ See http://www.wto.org/english/thewto_e/whatis_e/tif_e/org6_e.htm (listing WTO Members) (last visited March 25, 2011).

Pursuant to Section 63.10 of the Commission's rules, 47 C.F.R. Sect. 63.10, the above-listed U.S. international carrier affiliates of AT&T continue to qualify for non-dominant classification on the route between the U.S. and Japan because AT&T Japan LLC has no market power on the foreign end of this route. AT&T Japan LLC has market shares under 50 percent in all relevant markets on the foreign end of the U.S.-Japan route, including the international transport and local access markets in Japan, and is not listed on the Commission's List of Foreign Telecommunications Carriers that are Presumed to Possess Market Power in Foreign Telecommunications Markets. *See Public Notice, The International Bureau Revises and Reissues the Commission's List of Foreign Telecommunications Carriers that are Presumed to Possess Market Power in Foreign Telecommunications Markets*, Jan. 26, 2007, http://hraunfoss.fcc.gov/edocs_public/attachmatch/DA-07-233A1.pdf. Accordingly, pursuant to Section 63.10(a)(3), the above-listed U.S. international carrier affiliates of AT&T are presumptively classified as non-dominant on this route.
