Attachment 2 provides the name, place of incorporation, and international Section 214 authorizations of the entities covered by this notification.

Response to Question 10

Verizon Wireless became affiliated with Vodacom Lesotho (Pty) Limited, VM, S.A., and Vodacom Tanzania Limited more than thirty days prior to the filing of this foreign carrier affiliation notification, but the notification was not filed previously due to administrative oversight. The affiliates reported herein are all non-dominant. To the extent necessary, Verizon Wireless seeks a waiver of Section 63.11(c) of the Commission's rules, 47 C.F.R. § 63.11(c).

Response to Question 12

Verizon Wireless certifies that its affiliates in Lesotho, Mozambique, and Tanzania are all authorized to operate in WTO member countries. These affiliates lack market power in their respective destination markets and qualify for a presumption of non-dominance under Section 63.10(a)(3) of the Commission's rules, 47 C.F.R. § 63.10(a)(3). None of these foreign carriers is listed on the Commission's List of Foreign Telecommunications Carriers that Are Presumed to Possess Market Power in Foreign Telecommunications Markets. Information about each of these carriers is provided below:

- Vodacom Lesotho (Pty) Limited, an affiliate of Verizon Wireless operating in Lesotho, provides traditional mobile services on 2G and 3G with a degree of capability to offer fixed and wireless services on other technologies, including wi-max and fiber. The company does not control bottleneck facilities and has market shares under 50 percent in all relevant markets on the foreign end of the U.S.-Lesotho route, including the international transport and local access markets.
- VM, S.A. is an affiliate operating in Mozambique. The company provides traditional mobile services on 2G and 3G with a degree of capability to offer fixed and wireless services on other technologies, including wi-max and fiber. VM, S.A. does not control bottleneck facilities or have a 50 percent or greater market share in the international transport and the local access markets in Mozambique.
- Vodacom Tanzania Limited is a Verizon Wireless affiliate operating in Tanzania. The company provides traditional mobile services on 2G and 3G with a degree of capability to offer fixed and wireless services on other technologies, including wi-max and fiber. Vodacom Tanzania Limited does not control bottleneck facilities or have a 50 percent or greater market share in the international transport and the local access markets in Tanzania.

Response to Question 16

Verizon Wireless requests non-dominant treatment on the U.S.-Lesotho, U.S.-Mozambique, and U.S.-Tanzania routes. See Response to Question 12 above.

Response to Question 17

Vodacom Lesotho (Pty) Limited is authorized to provide telecommunications services to the public in Lesotho. VM, S.A. is authorized to provide telecommunications services to the public in Mozambique. Vodacom Tanzania Limited is authorized to provide telecommunications services to the public in Tanzania.

Responses to Question 18

Verizon Wireless is authorized to provide facilities-based and resold international services on the U.S.-Lesotho, U.S.-Mozambique, and U.S.-Tanzania routes.

Response to Question 19

Verizon Wireless does not serve Lesotho, Mozambique, and Tanzania solely through the resale of international switched services of unaffiliated U.S. facilities-based carriers.

Response to Question 20

The ultimate 10 percent or greater interest holders in Verizon Wireless are Verizon Communications Inc. (“Verizon”) and Vodafone Group Plc (“Vodafone”).

Verizon Communications Inc.

140 West Street

New York, NY 10007

Principal Business: Holding company that owns operating subsidiaries that provide a range of communications services.

Citizenship: Delaware (U.S.) Corporation
