Response to Question 12

On November 25, 2015, Alestra, S. de R.L. de C.V.'s ("Alestra") parent company, Alfa, S.A.B. de C.V. ("Alfa") completed a corporate restructuring and transferred its ownership of Alestra to a subsidiary fully owned by Alfa, Onexa, S.A. de C.V. ("Onexa")

On January 15, 2016, Axtel, S.A.B. de C.V. ("Axtel") a Mexican telecommunications carrier that owns facilities in Mexico, and Onexa executed a merger agreement, effective on February 15, 2016. As a result of the merger, Axtel fully absorbed Onexa, which became extinct. Onexa transferred all of its asset to Axtel, and Axtel subrogated and assumed as its own all rights, duties and obligations of Onexa.

Axtel, Alestra, Alfa, and a group of stockholders holding approximately 45% of the capital stock of Axtel agreed to exchange new shares with a ratio of 0.8027 shares for each share of Onexa. As a result of the exchange, Alfa, as the majority shareholder of Onexa received shares representing 50.19% of the capital stock of Axtel. The capital stock of Alfa in Axtel may be adjusted in accordance with the fluctuation of the US Dollar/Mexican Peso exchange rate; however, under no circumstance may the final percentage of participation of Alfa in Axtel be below 50.19 or exceed 53.50% of the merged corporation.

The following diagram describes the Transaction in detail.

As a result of the transaction, Alestra is now affiliated with Axtel, a foreign telecommunications carrier.

The Commission's rules require Section 214 holders to provide the Commission with 45 days' notice prior to closing a Transaction where the Section 214 holder will become affiliated with a foreign carrier authorized to operate in a market where the Section 214 holder is authorized to provide service. 47 C.F.R. § 63.11. Specifically, the 214 holder must notify the FCC at least 45 days prior to: "Acquisition of a direct or indirect interest greater than 25%, or of a controlling interest, in the capital stock of the authorized carrier by a foreign carrier that is authorized to operate in a market that the authorized carrier is authorized to serve, or by an entity that controls such a foreign carrier." 47 C.F.R. § 63.11.

Under 47 C.F.R. § 63.11(b)(2)(i), a carrier is not required to provide the Commission with notice of the Transaction 45 days prior to closing if the Carrier “certifies that the named foreign carrier is authorized to operate in a WTO Member and provides certification to satisfy either of the following: (i) The authorized carrier demonstrates that it is entitled to retain non-dominant classification on its newly affiliated route pursuant to § 63.10.” See 47 C.F.R. § 63.11(b)(2)(i).

Pursuant to section 63.11(b)(2)(i), the Parties to the Transaction were not required to provide the Commission with 45 days’ notice prior to closing the Transaction because (1) Mexico is a WTO Member; and (2) Axtel is entitled to retain non-dominant classification with respect to the U.S.-Mexico route.

While the Commission has not previously found in an adjudication that Axtel lacks market power in Mexico, it is entitled to a presumption of non-dominance because another carrier, Telmex Holdings, Inc., has agreed to be classified as dominant on the US-Mexico route. See, e.g., Transfer of Control from Carso Global Telecom to Telmex Holdings, Inc., ITC-T/C-20100714-00284 (August 11, 2010) (“Telmex Holdings agrees to be classified as dominant on the U.S.-Brazil, U.S.-Dominican Republic, U.S.-El Salvador, U.S.-Guatemala, U.S.-Mexico and U.S.-Nicaragua routes pursuant to section 63.10 of the Commission's rules, 47 C.F.R. § 63.10”).

Furthermore, the Mexican Federal Telecommunications Institute (“IFT”) has not declared the Axtel to be dominant in the telecommunications market. The IFT has the authority to declare dominance and to impose corresponding obligations on dominant telecommunications service providers. In March 2014, the IFT issued a ruling declaring Telefonos de Mexico, S.A.B. de C.V., Radiomovil Dipsa, S.A. de C.V. and other related parties as dominant in the telecommunications market in Mexico. See Informe Estradistico, 3 Trimestre 2014, Instituto Federal de Telecomunicaciones (available at <http://www.ift.org.mx/sites/default/files/contenidogeneral/comunicacion-y-medios/informe3ertrimestre2014.pdf>). As a result, Axtel is entitled to retain non-dominant classification with respect to the U.S.-Mexico route.
