

FOREIGN CARRIER AFFILIATION NOTIFICATION ATTACHMENT

Upon consummation of the GCI-Liberty transaction¹ on March 9, 2018, The Alaska Wireless Network, LLC (“AWN”) became affiliated with foreign carriers in the countries listed below. AWN—which is authorized to provide only resale international telecommunications services under the terms of its international Section 214 authorization—provides resale telecommunications services on the routes below only through the resale of the switched international telecommunications services of unaffiliated U.S. facilities-based carriers. AWN therefore qualifies for presumptive non-dominant status under 47 C.F.R. § 63.10(a)(4). Consequently, AWN is permitted to file this notification as a “post notification” under 47 C.F.R. § 63.11(b)(2)(i) for the affiliates listed below.

Question 7 – Date of filing of Transfer of Control

The following transfer of control application, filed May 1, 2017, addressed the transaction giving rise to the affiliation with the foreign carriers:

Consolidated Application for Consent to Transfer of Control of International and Domestic Section 214 Authority of General Communication, Inc. to GCI Liberty, Inc., ITC-T/C-20170501-00092.

The Transfer of Control Application has been granted. *See Joint Application of General Communication, Inc. and GCI Liberty, Inc. for Consent to Transfer Control*, Memorandum Opinion and Order, 32 FCC Rcd. 9349 (Wireline Comp., Int’l, Media, and Wireless Telecomm’ns Burs. 2017).

Question 12 – Section 63.11(b) exceptions

AWN qualifies for the exception in 63.11(b)(2)(i) because it is entitled to retain non-dominant classification on the newly affiliated routes pursuant to 47 C.F.R. § 63.10. AWN—which is authorized to provide only resale international telecommunications services under the terms of its international Section 214 authorization—provides resale telecommunications services on the affiliated routes only through the resale of the switched international telecommunications services of unaffiliated U.S. facilities-based carriers. Consequently, AWN qualifies for presumptive non-dominant status under 47 C.F.R. § 63.10(a)(4).

Question 16 – Continued qualification for non-dominant status

AWN requests continued regulation as a non-dominant international carrier pursuant to 47 C.F.R. § 63.10(a)(3) and (4).

The foreign carrier affiliates identified in response to Question 5 above with an “N” in the “Dominant Status?” column each satisfy the requirement of 47 C.F.R. 63.10(a)(3). Each of

these foreign carrier affiliates holds significantly less than a 50% market share in the international transport and local access markets in its respective country. Moreover, none of these foreign carrier affiliates has any ability to discriminate against unaffiliated U.S. international carriers through the control of bottleneck services or facilities in its respective international market or appears on the Commission's list of foreign telecommunications carriers presumed to possess market power in foreign telecommunications markets.² Accordingly, these foreign carrier affiliates are each presumed to lack sufficient market power on the international end of the route to affect competition adversely in the U.S. market.

Further, AWN provides international service to the countries listed in response to Question 5 solely through the resale of unaffiliated U.S. facilities-based carriers' international switched services and continues to do so after consummation of the transaction. AWN therefore should continue to be classified as non-dominant under 47 C.F.R. § 63.10(a)(4). Pursuant to Section 63.10(a)(4), AWN will notify the Commission in the event that it begins to re-sell the international switched services of carriers other than unaffiliated U.S. facilities-based carriers, including either a showing of qualification for non-dominant treatment or a commitment to comply with the dominant carrier obligations enumerated in 47 C.F.R. § 63.10(c).

Question 17 – Newly affiliated foreign carriers

See response to Question 5, above.

Question 18 – Services that AWN is authorized to provide in the above countries

As required by 47 C.F.R. § 63.11(e)(3), AWN certifies that it is authorized to provide global resale services to the countries listed above pursuant to FCC File No. ITC-214-20120618-00162.

Question 19 – Countries served solely through resale of services

As required by 47 C.F.R. § 63.11(e)(4), AWN certifies that it serves the countries listed above solely through the resale of international switched services of unaffiliated U.S. facilities-based carriers.

Question 20 – Ownership information

As required by 47 C.F.R. § 63.11(e)(5), AWN certifies that it has the following 10-percent-or-greater direct or indirect owners:
