Question 5 – Countries of affiliation

By this filing, the carrier identified in the Carrier Affiliations Notification, Carrier Information, No. 1 (the “Company”) notifies the FCC of affiliations with foreign carriers in the following countries:

Austria	Denmark	Ireland	Singapore
Belgium	Finland	Italy	Sweden
Canada	France	Netherlands	Switzerland
Czech Republic	Germany	Norway	United Kingdom

Question 10 – Late notification

The Company requests a waiver of the requirement that carriers notify the FCC of foreign affiliations within thirty (30) days after closing. Following its late August 2021 acquisition by Stonepeak Associates IV LLC and its affiliates,¹ the Company inadvertently missed the deadline for this filing by approximately two weeks. The Company notes that it clearly qualifies for continued nondominant treatment on the routes between the U.S. and the above-listed countries but apologizes for any inconvenience resulting from its untimely notification.

Question 12.c.1 – Non-dominant carrier demonstration

The Company is currently regulated as non-dominant on the routes between the U.S. and the above-listed countries. The Company asks that it continue to be regulated as a non-dominant carrier on each of these routes. Continued non-dominant treatment is appropriate on these routes because the Company’s foreign carrier affiliates in the above-listed countries each lack a 50 percent market share in the international transport and local access market. Currently, each of the Company’s new foreign carrier affiliates holds significantly less than a 50-percent market share in the international transport and local access markets in its respective country. Moreover, none of the foreign affiliates has any ability to discriminate against unaffiliated U.S. international carriers through the control of bottleneck services or facilities in its respective international market or appears on the Commission’s list of foreign telecommunications carriers presumed to possess market power in foreign telecommunications markets.² Accordingly, these foreign-

May 28, 2021); see also *Consolidated Application for Consent to Transfer Control of Section 214 Authority Holders—Streamlined Processing Requested*, WC Docket No. 20-407 (filed Dec. 2, 2020).

carrier affiliates are each presumed to lack sufficient market power on the international end of the route to affect competition adversely in the U.S. market.

Question 16 – Appropriateness of continued non-dominant treatment

Continued non-dominant treatment is appropriate for the Company on the routes between the U.S. and the above-listed countries because the Company’s affiliates on these routes lack market power in the international transport and local access market, as demonstrated in the answer to Question 12.c.1 above.

Question 17 – Foreign carrier affiliates that are the subject of this Notification

By this Notification, the Company advises the FCC that the Company is affiliated with the following foreign carriers:

Name of the Affiliated Carrier:	Country:	Date of Affiliation:
ExteNet Systems (Canada) Inc.	Canada	August 19, 2021
Xplornet Communications Inc.	Canada	August 19, 2021
