UNITED STATES OF AMERICA  
FEDERAL COMMUNICATIONS COMMISSION  
APPLICATION FOR AN INTERNATIONAL, EXPERIMENTAL TELEVISION,  
EXPERIMENTAL FACSIMILE, OR A DEVELOPMENTAL BROADCAST  
STATION LICENSE

INSTRUCTIONS

- A. This form is to be used in all cases when applying for an International, Experimental Television, Experimental Facsimile, or a Developmental Broadcast Station License.
- B. Prepare and file three copies of this form and all exhibits. File with the Federal Communications Commission, Washington, D.C. 20554.
- C. Number exhibits serially in the space provided in the body of the form and list each exhibit in the space provided on page 3 of this form. Date each exhibit.
- D. The name of the applicant must be stated exactly as it appears on the construction permit which is being covered.
- E. Information called for by this application which is already on file with the Commission need not be refiled in this application provided (1) the information is now on file in another application or FCC Form filed by or behalf of this applicant; (2) the information is identified fully by reference to the file number (if any), the FCC form number, and the filing date of the application or other form containing the information and the page or paragraph referred to, and (3) after making the reference, the applicant states: "No change since date of filing." Any such reference will be considered to incorporate into this application all information, confidential or otherwise, contained in the application or other form referred to. The incorporated application or other form will thereafter, in its entirety, be open to the public.
- F. This application shall be personally signed by the applicant, if the applicant is an individual; by one of the partners, if the applicant is a partnership; by an officer, if the applicant is a corporation; by a member who is an officer, if the applicant is an unincorporated association; by such duly elected or appointed officials as may be competent to do so under the laws of the applicable jurisdiction, the applicant is an eligible government entity; or by the applicant's attorney in case of the applicant's physical disability or of his absence from the United States. The attorney shall, in the event he signs for the applicant, separately set forth the reason why the application is not signed by the applicant. In addition, if any matter is stated on the basis of the attorney's belief only (rather than his knowledge), he shall separately set forth his reasons for believing that such statements are true.
- G. BE SURE ALL NECESSARY INFORMATION IS FURNISHED AND ALL PARAGRAPHS ARE FULLY ANSWERED. IF ANY PORTIONS OF THE APPLICATION ARE NOT APPLICABLE, SPECIFICALLY SO STATE. DEFECTIVE OR INCOMPLETE APPLICATIONS MAY BE RETURNED WITHOUT CONSIDERATION.

**Ontario CA 91761**

Name and address of person to whom communications should be sent, if different from above.

Name  
**James K. Planck**

Street Address  
**9102 Reserve Dr.**

City State ZIP Code  
**Corona CA 92883**

1. Construction permit covered by this application

File number Date of Grant Call sign  
**20120302 12/31/2012 KIMF**

Type of station Location  
**Broadcast near Beowave/  
International Battle Mtn., NV**

Construction begun Construction completed  
**06/19/2014 (see Attached Ext.  
11/21/2016 (ES-9))**

Is the station now in satisfactory operating condition and ready for regular operation? If the answer is "No", explain  
Yes  No

We have not yet built the 40 deg. antenna system for Canada, and may abandon that request. (otherwise operations for 108, 138, & 313 deg. could begin when authorize

2. Transmitting apparatus installed  
Make Type No.  
**Harris MW-50  
PTS PTS-HF-100**

Transmitter location  
State County  
**Nevada Lander**

City or town Street and number  
**near Beowave**

Geographical coordinates  
North latitude West longitude  
**40 35 53 116 36 27**

3. Facilities authorized by construction permit

Call Sign	Frequency 1/	Hours of operation	Power 2/	Necessary bandwidth (Kc)	Type of emission 3/
KIMF	6.065 Mhz	01-06 UTC	50K	9 KHz	9K00A3E
"	9.300 "	08-12 UTC	100K usb	4.5 KHz	4.5K00R3A
1/	13.570	00-04 UTC	100 KW usb	4.5 KHz	4.5K00R3A

- 2/ For amplitude modulation television (A5), give maximum antenna input power during synchronizing pulses. If particulars are not fully described above, such as aural and visual carrier frequencies and power for television and type of emission, etc., supply this information as Exhibit No. N/A. Developmental stations using amplitude modulation or frequency modulation, give unmodulated antenna input power. For other types of emission, give a full description of method of determining power as Exhibit No. ES-7. Describe in Exhibit No. ES-7 means which will be used for determining and maintaining power output of the transmitter to the values specified.
- 3/ See Part 2 of the Commission's Rules and Regulations.

4. Attach as Exhibit No. **ES-6A** a sketch and dimensions of antenna system.

~~(see original CP no change)~~

6. In what respect, if any, does the apparatus constructed differ from that described in the application for construction or in the permit?

5. Frequency monitor

Make <b>HP Belar</b>	Type No. <b>5832A AMM-2d</b>
-----------------------------	-------------------------------------

We have not yet built the 40 deg. antenna system (Canada) and this system may be abandoned.

By what method and how often will regular checks of the calibration of the frequency monitor be repeated?

**Calibrated w/in house freq. standard calibrated w/WWV 2x/Yr**

Give the following data on the calibration of the frequency

Date and time	Name of checking agency or method used
1. <b>10-21-2016 3:00pm</b>	<b>WWV 10.000Mhz Standard</b>
2.	
3.	
4.	

Frequency measured by such agency or method	Monitor reading high or low
1. <b>6065 Khz</b>	<b>60650000 Mhz</b>
2. <b>9300 Khz</b>	<b>93000001 Mhz</b>
3. <b>13,570 Khz</b>	<b>13.57000001 Mhz</b>
4.	

THE APPLICANT waives any claim to the use of any particular frequency or of the ether as against the regulatory power of the United States because of the previous use of the same, whether by license or otherwise, and requests a station license in accordance with the application. (See Section 304 of the Communications Act of 1934.)

THE APPLICANT, or the undersigned on the applicant's behalf, states that he has endeavored to supply full and correct information as to all matters which are relevant to this application and that he has done so as to all matters within his own knowledge.

**CERTIFICATION**

I certify that the statements in this application are true, complete and correct to the best of my knowledge and belief, and are made in good faith.

Signed and dated this 5th day of Dec., 2016

## RE: Request For Extension

From: **Thomas Lucey** (Thomas.Lucey@fcc.gov)  
Sent: Tue 12/01/15 6:14 PM  
To: James (jkpimf@msn.com)  
Cc: Shahnaz Ghavami (Shahnaz.Ghavami@fcc.gov)

Hello James,

Your request for an extension of your construction permit for one year, to 12/13/2016, is approved.

Best regards,  
Tom Lucey, FCC

---

From: James [jkpimf@msn.com]  
Sent: Tuesday, December 1, 2015 7:40 AM  
To: Thomas Lucey  
Subject: Request For Extension

Hello Mr. Lucey:

I have spoken yesterday to Mr. George McClintock, whom you know well, concerning completion of our construction permit IHF-C/P-20120302-00001 for International Fellowship of Churches, Inc. near Beowave, Nevada. He advised that I should contact you concerning completion and request for extension.

I just returned a few days ago from Nevada working to complete our new station construction, and now weather has taken a change for the worse we have some construction issues which will not allow us to complete the project by 12/13/2015 the end date of our permit. This was a totally virgin site of 160 acres which we purchased to build this station, and we have completed installing a transmitter building, some antenna poles and delivered and installed some of the initial transmitter equipment, and tested at low power, however; there remains some antenna poles/towers to be installed, and other poles which we have purchased to be yet delivered. In addition since power from the power grid is about 1 mile away we plan to operate in the interim with our 600 KVA power plant which we have purchased, until line power can be brought in. The genset at that point would then be our standby power. This unit is in a 40' enclosed trailer which was scheduled to be hauled into the site in early November, but I held back having it delivered because of weather issues. We obviously need to be able to operate at full power in order to complete our OST 65 testing and apply for our license to operate.

We are committed to completion of this project, but we are going to need an addition extension to complete of at least 6 months to 1 year to fully complete and test. We had hoped to be licensed and on the air by late Spring, but this additional time requested would give us some breathing room to complete everything. I am very hopeful you may be able to help

us secure this extension. Please feel free to contact me either by email to [jkpimf@msn.com](mailto:jkpimf@msn.com) <<mailto:jkpimf@msn.com>>, or by phone to my number 951-906-8884. I will also give you a call after you have had time to review. Thank you for your consideration.

Sincerely,  
Dr. James K. Planck  
President & Technical Director-IFC/IMF
