FILED/ACCEPTED  
MAR 28 2007  
Federal Communications Commission  
Office of the Secretary

**AMENDMENT TO PETITION FOR DECLARATORY RULING  
UNDER SECTION 310(B)(4) OF THE  
COMMUNICATIONS ACT OF 1934, AS AMENDED**

Teltranet LLC (“Teltranet”) hereby respectfully amends its request for a declaratory ruling filed on February 14, 2007.

Teltranet filed a petition for declaratory ruling that the proposed indirect foreign ownership interest in Teltranet is consistent with the public interest standard established by Section 310(b)(4) of the Communications Act of 1934, as amended (“the Communications Act”), 47 U.S.C. § 310(b)(4).

Following discussions with Commission staff on this issue, this amendment is filed to inform the Commission of a change in structure of the proposed transaction to ensure that it complies with the Act’s provision. Specifically, the transaction is now structured so that the investment of Telink Networks SW LLC (“Telink SW”), an entity indirectly controlled by a Canadian investor, will be held through a controlling U.S. parent company of the licensee. Specifically, Teltranet will create a wholly owned subsidiary, to be called Teltranet Licenses LLC, a Delaware limited liability company, to

hold the Commission licenses upon consummation of the transaction.<sup>1</sup> The rest of the proposed structure (and the remainder of the foreign ownership analysis) remains as set forth in the petition for declaratory ruling. Telink SW will continue to hold 25% of Teltranet post-transaction, which in turn will control Teltranet Licenses LLC—which will hold all FCC licenses. A revised ownership chart setting forth the new structure is attached as Exhibit A.

Kindly direct any questions regarding this change in proposed structure or the petition for declaratory ruling to the undersigned.

Respectfully submitted,

Teltranet LLC
