AMENDED PETITION FOR DECLARATORY RULING

Pursuant to section 310(b)(4) of the Communications Act of 1934, as amended (the “Communications Act”),¹ and the Federal Communications Commission’s (“FCC’s” or “Commission’s”) implementing rules,² 2014 AWS Spectrum Bidco Corporation (“Bidco”) respectfully amends its pending petition for the Commission to issue a declaratory ruling that it would not serve the public interest to prohibit indirect foreign ownership in Bidco of more than 25 percent.³ This amendment is being filed due to recent changes in the indirect ownership of Bidco, which are described in Exhibit D. For administrative convenience and given the nature of the changes, Bidco submits a complete revised petition that reflects its current ownership.

Equity Interests. Three limited partners jointly hold 100% of the equity in Highland Crusader Offshore Partners, L.P.

In turn, a fully insulated U.S. state public pension plan holds 96.42% of the equity interests in Solus Core Opportunities LP. ² The funds have delegated responsibility for portfolio management decisions to Solus Alternative Asset Management LP (“Solus”), a Delaware limited partnership that serves as investment advisor to the funds. Thus, Solus – not any passive fund investor – has control over investment management decisions.

over fund portfolio positions, including TerreStar.³ No other interest holder has a 10% or greater indirect equity or voting interest in Sola Ltd or Sola Intermediate Fund Ltd through SMS Ltd. In turn, MaplesFS Limited, a Cayman Islands corporation, holds 100% of the voting interests in West Face (Cayman 2) Inc. No individual or entity holds a 10% or greater interest in MaplesFS Limited.

Equity Interests. Three limited partners jointly hold 100% of the equity in West Face Long Term Opportunities Global Master L.P.

- First, West Face Long Term Opportunities Limited Partnership, a Canadian limited partnership, holds 13.2% of the equity in West Face Long Term Opportunities Global Master L.P. West Face Long Term Opportunities Limited Partnership is held by numerous parties, none of which holds a 10% or greater indirect equity interest in West Face Long Term Opportunities Global Master L.P. Moreover, none of the shareholders are foreign individuals or entities holding more than 5% of the equity in Spectrum Partnership.

In turn, 95.5% of the equity in West Face Long Term Opportunities Master Fund L.P. is held by West Face Long Term Opportunities Fund Ltd., a Cayman Islands corporation. As a result, West Face Long Term Opportunities Fund Ltd. indirectly holds 7.02% of the equity in Spectrum Partnership.
 - MIT Investments 2010, L.P. holds a 14.72% equity and voting interest in West Face Long Term Opportunities Fund Ltd., and therefore, indirectly holds a 14.06% equity interest in West Face Long Term Opportunities Master Fund L.P.
 - The remaining 85.28% equity and voting interests in West Face Long Term Opportunities Fund Ltd. are held by numerous shareholders, none of which holds 10% or more of the equity directly in West Face

Long Term Opportunities Fund Ltd. or indirectly in West Face Long Term Opportunities Master Fund L.P.

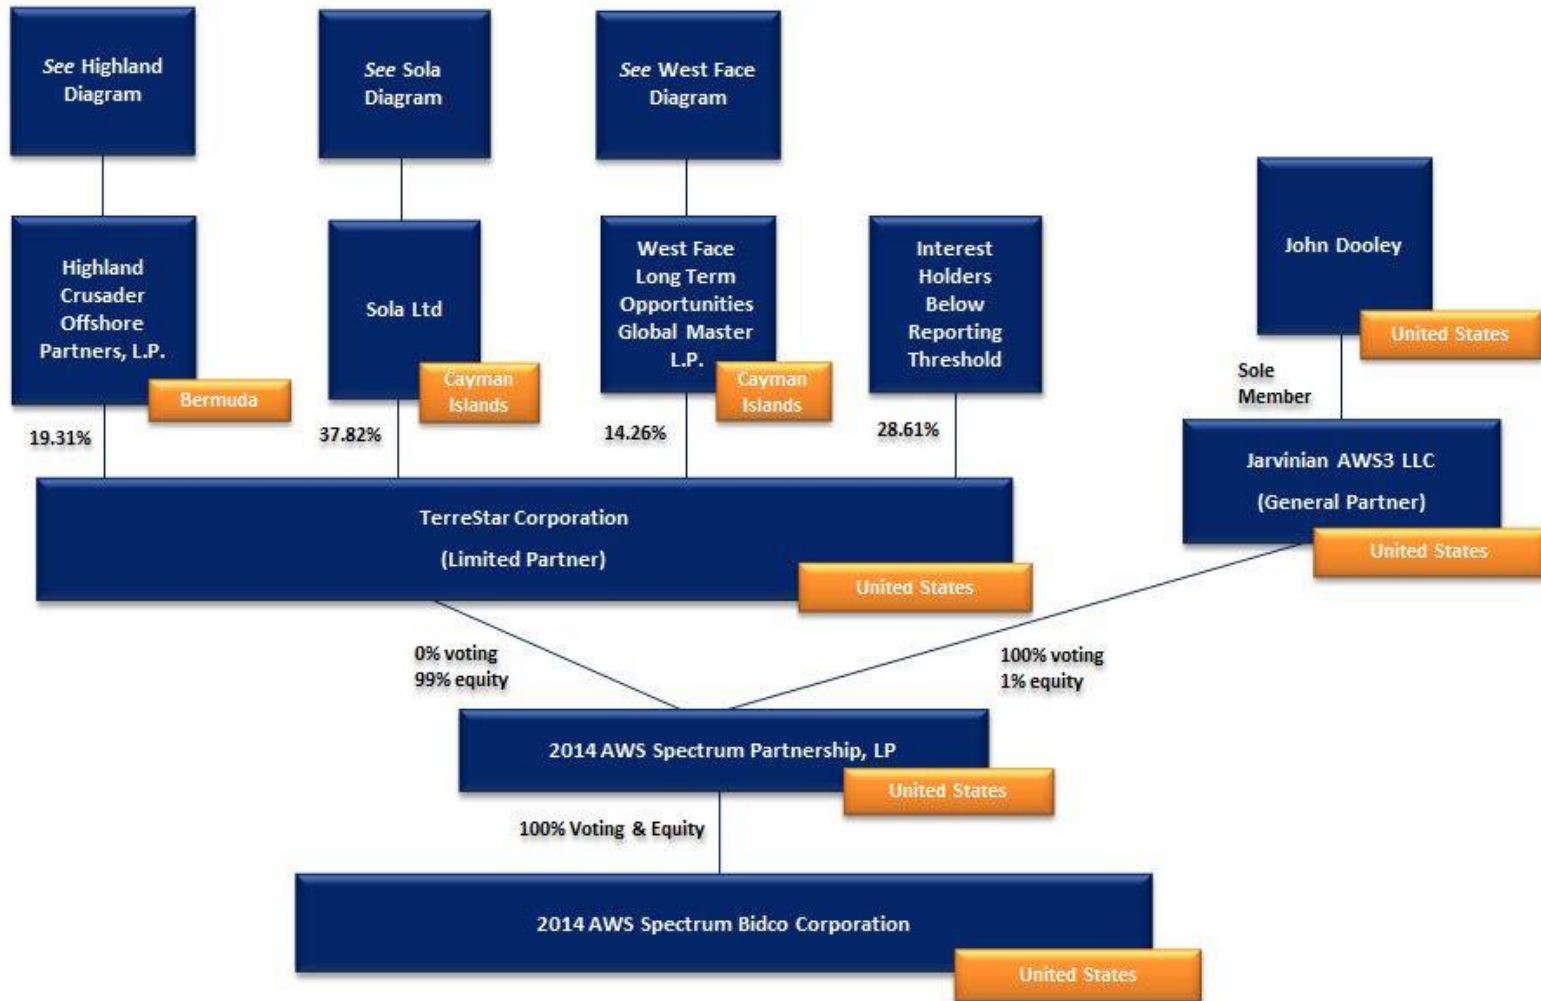

- Similarly, none of the interest holders are foreign individuals or entities holding more than 5% of the equity in Spectrum Partnership.

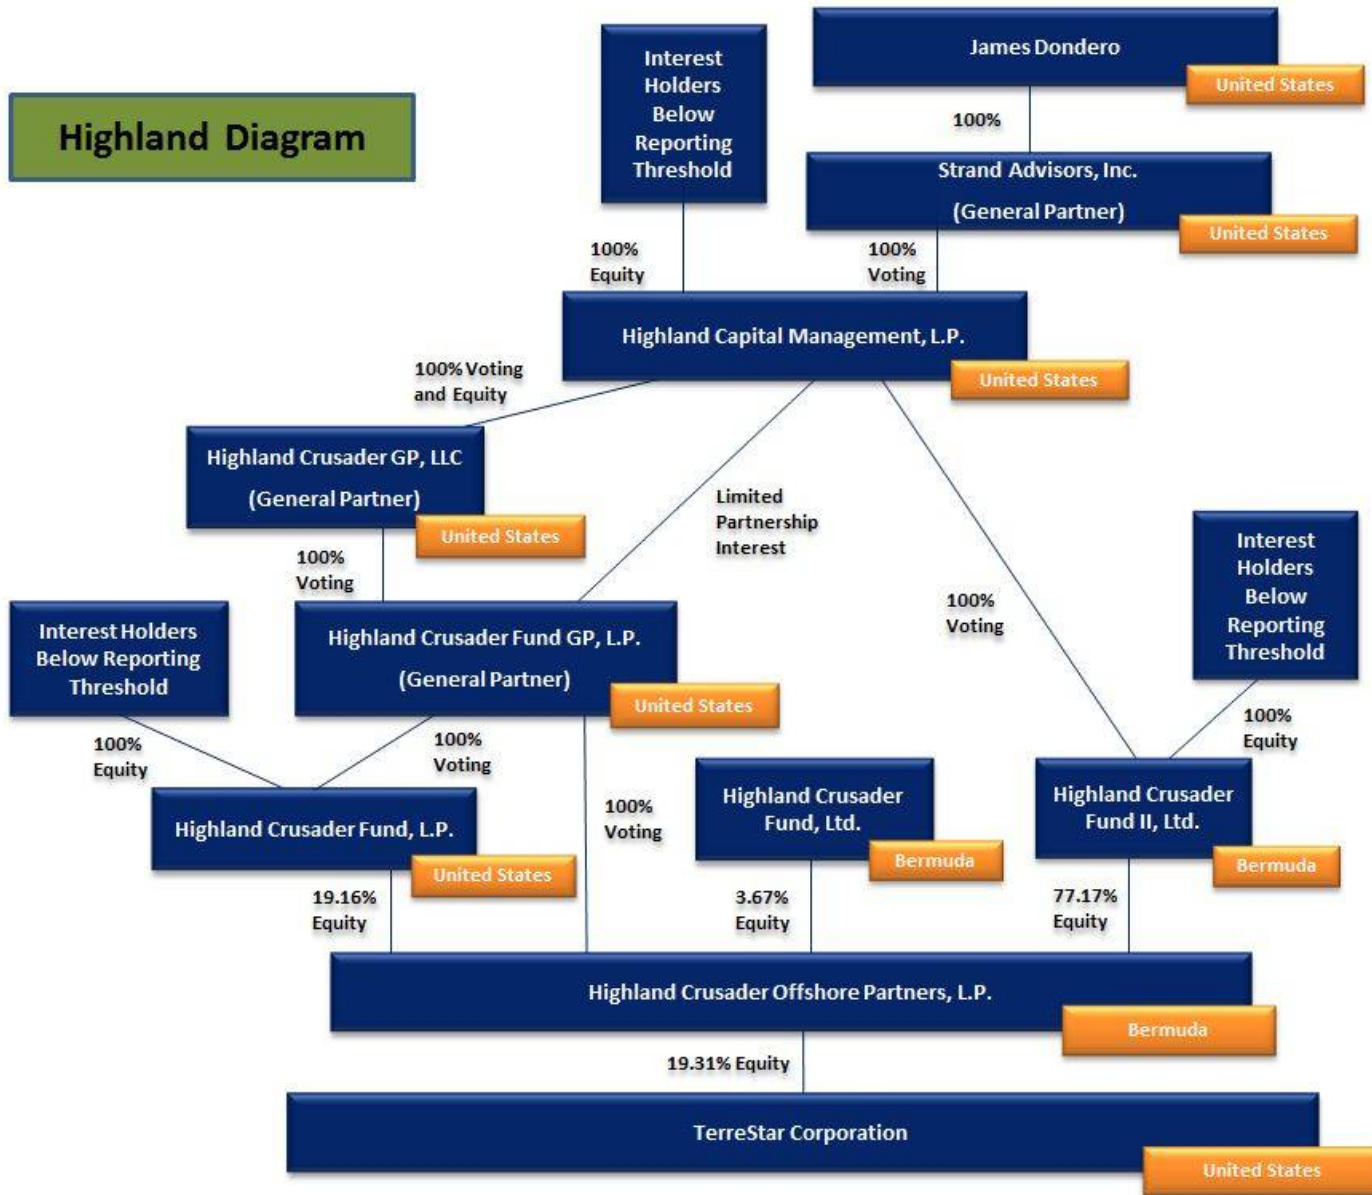

4. Other Interest Holders

In addition to the interests held by and through the three entities outlined above, 28.61% of TerreStar's equity and voting interests are held by diverse shareholders, each of which holds less than 10% of the voting and equity interests in TerreStar. Of this 28.61%, 10.62% of TerreStar's interests have been identified as foreign and 17.69% have been identified as domestic. The citizenship status of the remaining 0.30% could not be identified and have, therefore, been treated as foreign. Accordingly, in sum, 10.92% of these interests in TerreStar have been treated as foreign. Note that none of these foreign holders have a 5% or greater interest in Spectrum Partnership that does not qualify for the exemption set forth in section 1.991(i)(3) of the Commission's rules.

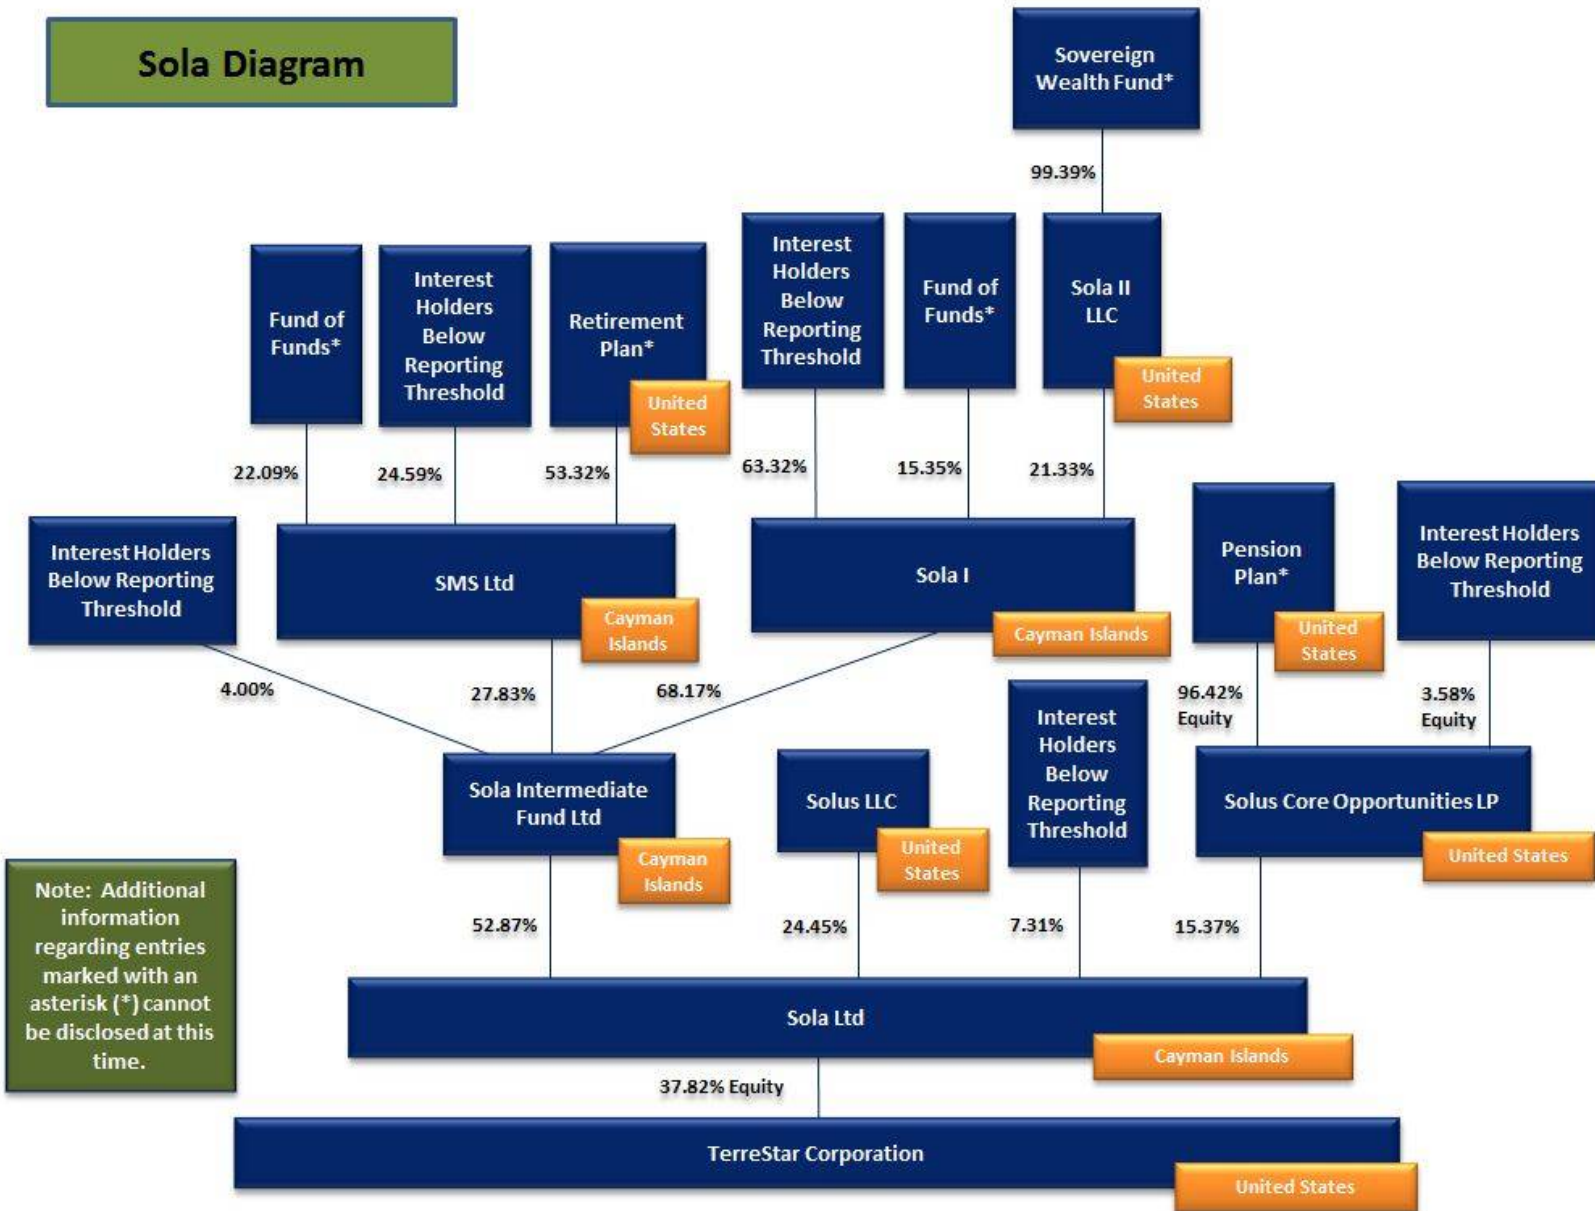

EXHIBIT B

OWNERSHIP STRUCTURE DIAGRAMS

Sola Diagram

Note: Additional information regarding entries marked with an asterisk (*) cannot be disclosed at this time.

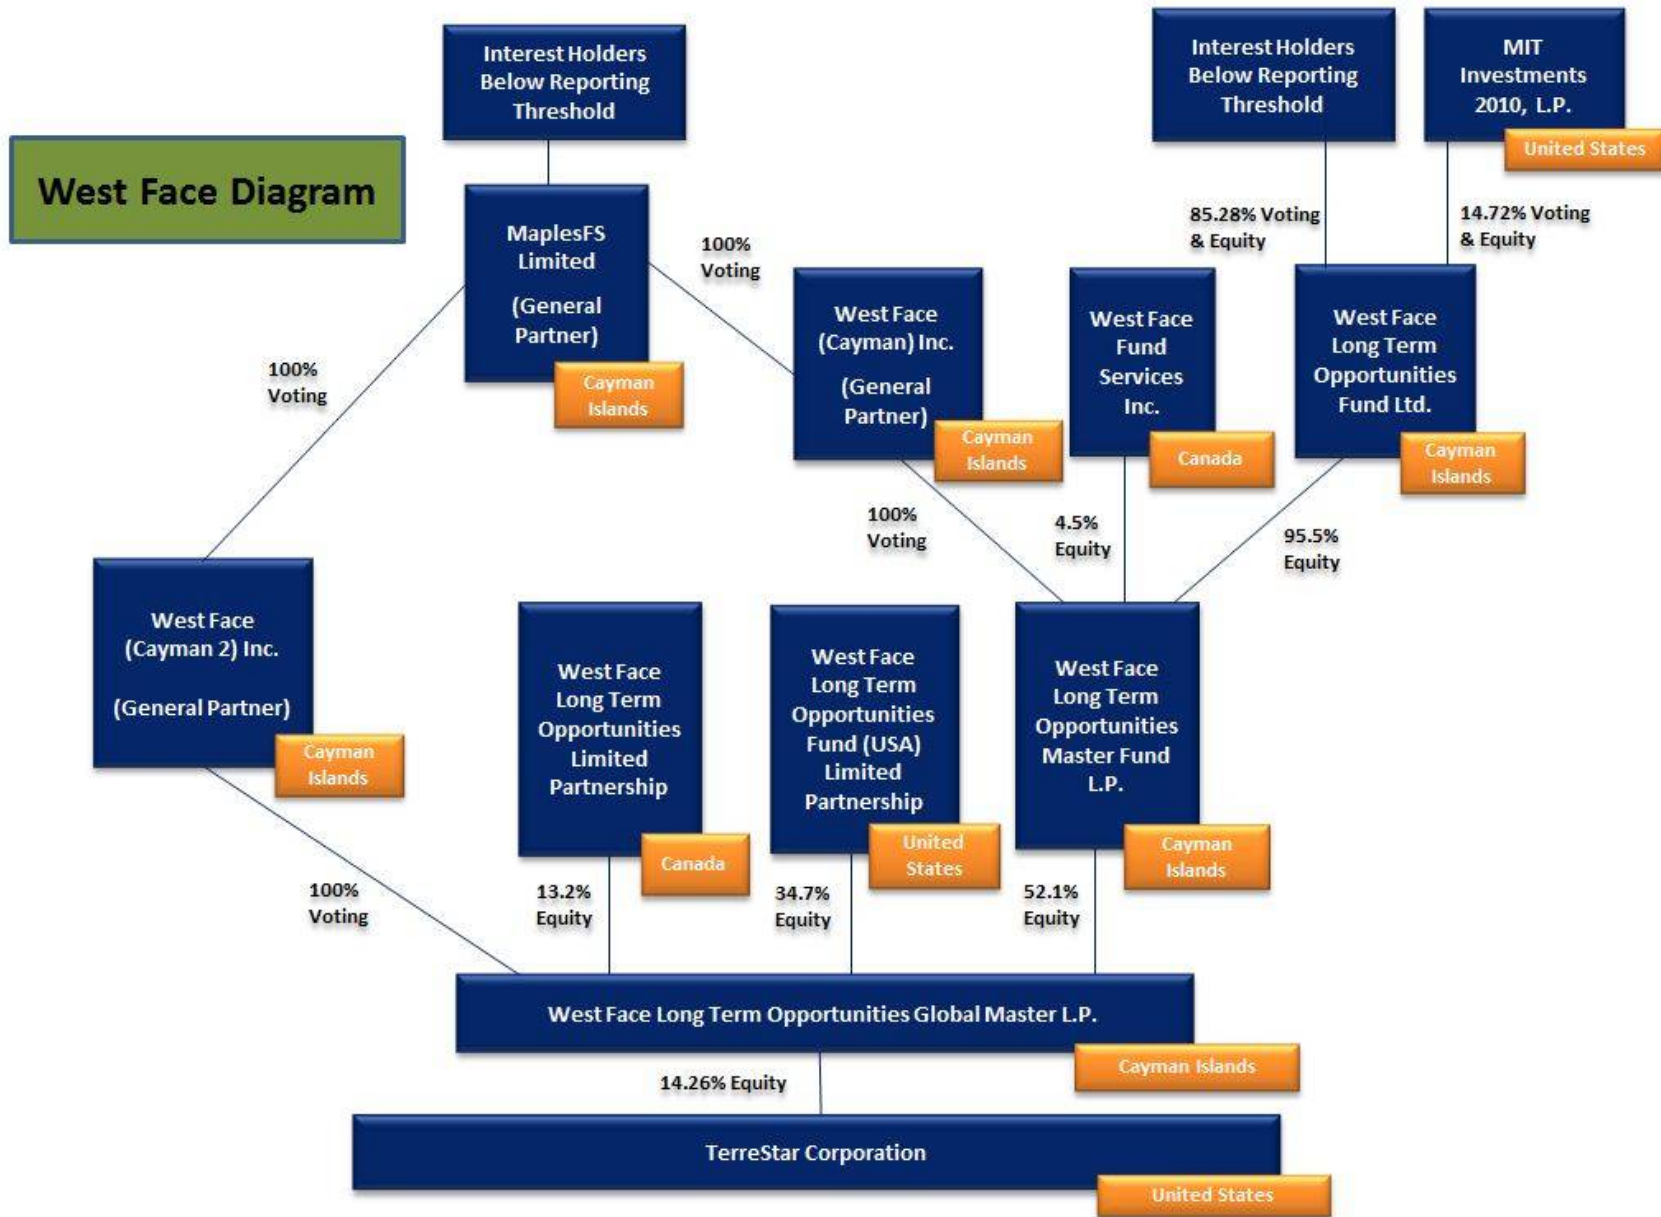

EXHIBIT C

AGGREGATE FOREIGN OWNERSHIP INFORMATION

As described in Exhibit A, there are no foreign voting interests in 2014 AWS Spectrum Partnership, LP (“Spectrum Partnership”), the U.S. parent of 2014 AWS Spectrum Bidco Corporation (“Bidco”). Instead, all of the foreign interests in Spectrum Partnership are indirect equity interests held through TerreStar Corporation (“TerreStar”), its fully insulated limited partner. These indirect foreign equity interests exceed 25%.

In particular, the total foreign equity held directly in TerreStar by foreign entities is 71.39%. To arrive at this figure, the disclosable direct interest holders in TerreStar each provided information regarding their country of organization. As noted:

- Highland Crusader Offshore Partners, L.P., which holds 19.31% of TerreStar’s equity, is a Bermuda limited partnership;
- Sola Ltd, which holds 37.82% of TerreStar’s equity, is a Cayman Islands exempted company; and
- West Face Long Term Opportunities Global Master L.P., which holds 14.26% of TerreStar’s equity, is a Cayman Islands limited partnership.

Accordingly, TerreStar would have indirect foreign ownership of 71.39% via these entities.

After adding the 10.92% foreign interest in TerreStar held by diverse smaller shareholders, TerreStar would have indirect 82.31% foreign ownership. In turn, Bidco would have 81.49% indirect foreign equity ownership through Spectrum Partnership, which holds 99% of the equity interests in TerreStar.

If one looks to the actual beneficial owner of each share, the ultimate indirect foreign interests held in TerreStar are significantly lower, because a significant percentage of the ultimate beneficial equity is held by U.S. entities and individuals. In particular, 35.98% of the ultimate equity in Spectrum Partnership would be indirectly held by foreign individuals and

entities. To determine whether the beneficial owner of each share is foreign or domestic for purposes of this analysis, Highland Crusader Offshore Partners, L.P., Sola Ltd, and West Face Long Term Opportunities Global Master L.P. each reviewed the information obtained directly from each registered owner at the time it subscribed for interests in the underlying funds or otherwise provided the fund with legal address and domicile information.¹ This data was then used to determine the aggregate percentage of indirect interests in TerreStar held by U.S. registered owners versus the aggregate percentage of indirect interests in TerreStar held by foreign registered owners. With respect to the remaining interests in TerreStar, each beneficial owner was contacted directly and asked to provide the appropriate information regarding citizenship and/or place of organization. As noted in Exhibit A, beneficial owners that did not respond were treated as foreign.

¹ Note that certain adjustments were made to the calculations for Sola Ltd to exclude any interests/shares in an underlying fund that had no exposure to TerreStar.

EXHIBIT D

CIRCUMSTANCES PROMPTING FILING AND SHOWING THAT GRANT OF THIS PETITION IS IN THE PUBLIC INTEREST

Reason for Filing. As noted in the original petition, filing of a Petition for Declaratory Ruling was prompted by 2014 AWS Spectrum Bidco Corporation's ("Bidco's") plans to bid on various licenses offered in Auction No. 97. In particular, Bidco filed FCC Form 175 on September 12, 2014 in order to qualify to bid in Auction No. 97 (File No. 0006458454). To qualify to participate in the auction, Bidco must have filed a petition for declaratory ruling requesting Commission approval to exceed the relevant foreign ownership benchmark set forth in section 310(b) of the Communications Act.¹ Bidco fully complied with that requirement.

Since that time, West Face sought to sell its shares in TerreStar Corporation ("TerreStar") to the other two main shareholders, Highland and Sola. On October 14, 2014, Sola consummated its purchase of a portion of the TerreStar shares that were held by West Face.²

Additionally, Sola has completed an internal transfer of shares among its feeder funds that resulted in minor adjustments to final percentages of ownership in TerreStar and therefore in Bidco. Sola Intermediate Fund Ltd's ownership percentage, and Sola I's indirect ownership percentage, in Sola Ltd have changed since the original petition was filed as a result of subscriptions to and redemptions from Sola Ltd's underlying feeder funds. The ownership information provided herein reflects these adjustments.

¹ *Auction of Advanced Wireless Services (AWS-3) Licenses Scheduled for November 13, 2014; Notice and Filing Requirements, Reserve Prices, Minimum Opening Bids, Upfront Payments, and Other Procedures for Auction 97*, Public Notice, 29 FCC Rcd 8386, ¶ 74 (2014).

² *See Application for Pro Forma Transfer of Control of TerreStar 1.4 GHz Holdings, LLC*, ULS File No. 0006483683 (consented to by FCC on Oct. 2, 2014). TerreStar 1.4 GHz Holdings, LLC is an FCC licensee indirectly wholly-owned by TerreStar Corporation.

Bidco wishes to alert the Commission to the fact that West Face Long Term Opportunities Global Master L.P. is in the process of selling its remaining 14.26% interest in TerreStar to Highland. While this transaction has not yet closed, it is anticipated to close soon. This transaction will not, however, result in any additional foreign individual or entity requiring specific approval or result in an overall indirect foreign ownership level higher than the 81.49% described in Exhibit C. Upon closing of this transaction, Bidco will file a minor amendment to the instant Amended Petition for Declaratory Ruling (“Petition”) that: (1) asks the Commission to strike the references to West Face Long Term Opportunities Global Master L.P. (and the other West Face entities described herein); (2) provides the relevant information regarding any new holder of a greater than 10% equity interest in 2014 AWS Spectrum Partnership, LP; (3) supplies revised versions of the ownership diagrams set forth in Exhibit B; and (4) updates the overall ownership percentages set forth in Exhibit C.

Public Interest Showing. The Commission has long recognized the benefits of foreign investment, frequently approving up to 100% foreign investment.³ Indeed, in implementing

section 310(b)(4) of the Communications Act, the Commission determined that allowing indirect foreign investment in common carrier radio licensees beyond the 25% benchmark established in section 310(b)(4), regardless of whether the entity or entities holding that interest are from World Trade Organization member countries, could promote competition in the U.S. market, thereby promoting the public interest.⁴ For example, the Commission explicitly found that the public interest would be served by permitting such foreign ownership, in part, because:

[R]emoving barriers to entry and focusing on competitive safeguards will promote effective competition in the U.S. telecommunications services market by removing unnecessary regulation and barriers to entry that can stifle competition and deprive U.S. consumers of the benefits of lower prices, improved service quality, and service innovations.⁵

Moreover, the Commission recently observed that “foreign investment has been and will continue to be an important source of financing for U.S. telecommunications companies, fostering technical innovation, economic growth, and job creation.”⁶

There is no reason to believe that these public interest benefits would not flow from the proposed foreign investment outlined herein, and the foreign investment at issue raises no other concerns under the Commission’s foreign ownership review.⁷ Bidco is not a foreign carrier, and

⁷ Notably, under section 310(b)(4), the Commission may refuse or revoke a license only where it makes an affirmative finding that the public interest would be served by doing so.

it is not owned or controlled by a foreign carrier. As a result, grant of this Petition will not result in an increased concentration in any market for telecommunications services and will not otherwise enabled a foreign carrier to exercise market power in favor of a U.S. affiliate.

Given the lack of competitive concerns and the many recognized benefits of the very type of foreign investment proposed herein, the requested declaratory ruling is fully consistent with the standard set forth in section 310(b)(4), the Commission's new foreign ownership rules, and prior Commission precedent. Accordingly, the public interest undoubtedly would be served by granting the Petition.

47 U.S.C. § 310(b)(4) (“No broadcast or common carrier or aeronautical en route or aeronautical fixed radio station license shall be granted to or held by . . . (4) any corporation directly or indirectly controlled by any other corporation of which more than one-fourth of the capital stock is owned of record or voted by aliens, their representatives, or by a foreign government or representative thereof, or by any corporation organized under the laws of a foreign country, if the Commission finds that the public interest will be served by the refusal or revocation of such license.”).
