PETITION FOR DECLARATORY RULING

AST Telecom, LLC d/b/a Bluesky (“AST”), a company holding common carrier wireless licenses in American Samoa, and Amalgamated Telecom Holdings Limited (“ATH”), a Fiji-organized telecommunications holding company, hereby jointly request a declaratory ruling, pursuant to Section 1.990(a)(1) of the Commission’s rules,¹ that indirect investment of 100 percent in AST by ATH is consistent with the public interest standard under Section 310(b)(4) of the Communications Act of 1934, as amended (the “Act”).² AST is indirectly owned by Amper, S.A. (“Amper”). Amper and its affiliates and ATH have entered into a purchase agreement pursuant to which ATH will acquire control of AST and its affiliates in American Samoa, Independent Samoa, the Cook Islands, and New Zealand (the “Proposed Transaction”). A

² 47 U.S.C. § 310(b)(4).

demonstration that the public interest would be served by granting the Petition is set forth in Exhibit 1.

I. BACKGROUND

A. The Licensee

AST, a Delaware limited-liability company headquartered in Pago Pago, American Samoa, holds multiple common carrier Commercial Mobile Radio Service (“CMRS”) licenses in the cellular, broadband PCS, AWS, and lower 700 MHz services, as well as a common carrier earth station license, all in American Samoa.³ AST also is the proposed assignee of two additional 700 MHz CMRS licenses in American Samoa. AST is currently a direct, wholly-owned subsidiary of eLandia International Inc. (“eLandia”), a Delaware corporation. eLandia is an indirect subsidiary of Amper, a Spanish holding company whose shares are traded publicly on the Madrid Stock Exchange under the symbol AMP. A diagram of the current ownership structure is set forth in Attachment B of Exhibit 1.

B. The Proposed Transaction and the FCC Applications

This Petition is filed in connection with the Proposed Transaction, in which a newly formed wholly-owned U.S. subsidiary of ATH will, among other things, acquire from eLandia all of AST’s outstanding member interests. ATH is a company organized under the laws of the Republic of Fiji, and it will create a new U.S. holding company to hold AST’s member interests. As a result, the foreign ownership in AST will be indirect and the transaction will comply with the requirements of Section 310(b)(4) of the Act and Section 1.990(a)(1) of the FCC’s rules.

³ The AST licenses that are subject to Section 310(b)(4) are listed in Section II.C. below.

In Exhibit 1, the Applicants provide additional details of the Proposed Transaction and its public interest benefits. The following applications being filed with respect to the Proposed Transaction are expressly related to this Petition for Declaratory Ruling:

1. An application to transfer control of multiple CMRS licenses held by AST (FCC Form 603), and
2. An application to transfer control of one common carrier satellite earth station authorization held by AST (FCC Form 312).

C. The Transferee, Amalgamated Telecom Holdings Limited, a Fiji Company

ATH is an experienced and financially sound holding company which owns several communications carriers that have a long and successful history of providing communications services to island-based markets in the South Pacific. ATH, based in Suva, Fiji, was incorporated as a public company in 1998 as a vehicle through which the Fiji government consolidated its investments in the telecommunications sector for the purpose of privatization and liberalization under Fiji's public sector reform program. ATH is listed on the South Pacific Stock Exchange.

ATH is Fiji's principal telecommunications holding company. ATH provides, through its operating subsidiaries, a wide range of telecommunications and related services to retail, enterprise and wholesale customers in Fiji. Specifically, Telecom Fiji Limited ("Telecom Fiji"), a wholly-owned subsidiary of ATH, is the dominant provider of fixed telephony services, broadband Internet, international voice and data connectivity, and equipment in Fiji. Vodafone Fiji Limited ("Vodafone Fiji") provides mobile voice, broadband, and data in Fiji. Fiji International Telecommunications Limited ("FINTEL"), a wholly-owned subsidiary of ATH, provides and operates international telecommunication facilities in and out of Fiji, with a gateway for submarine cable and satellite communications. ATH, through its operating

subsidiary Amalgamated Telecom Holdings (Kiribati) Limited, also provides fixed telephony, broadband Internet and data, and wireless services in the Republic of Kiribati.

Neither ATH nor any of its subsidiaries currently holds or controls any FCC licenses or authorizations. Consummation of the Proposed Transaction will allow ATH to leverage its considerable experience and expertise in serving island markets and AST's record of innovation and infrastructure development to ensure innovation, investment, and a superior customer service experience for users in American Samoa. A diagram of the proposed ownership structure is set forth in Attachment B of Exhibit 1.

D. ATH's Ownership and Governance

The Fiji National Provident Fund ("FNPF") currently holds approximately 72.6 percent of the shares of ATH. The FNPF is a superannuation fund with assets exceeding FJ \$5 billion that collects compulsory contributions from private sector and public sector employees and employers to provide retirement benefits to Fiji workers, and it provides other financial services to members. As part of its operations, FNPF invests contributions received from members into various asset classes, including local and foreign equities, local and foreign term deposits, government securities such as bonds and treasury bills, direct property and commercial lending. Income derived from these investments is distributed to the members' accounts at the end of each financial year. FNPF's seven directors are appointed by the Minister of Finance of the Fiji government. Under the statute creating the FNPF, board members must meet qualifications set forth by the Fiji Reserve Bank that assures that the funds are managed by a board with broad skillsets that include investment management; corporate governance; accounting and auditing; finance and banking; risk management; law; actuarial or auditing experience and information technology or a similar engineering discipline. No more than one director may be a civil servant.

The Fiji government currently holds an approximate 17.3-percent equity and voting interest in ATH. No other shareholder or group of shareholders holds a five-percent-or-greater equity or voting interest in ATH. The remaining 10.10 percent of ATH's shares are held by more than 1500 shareholders.

ATH's board of directors is comprised of seven members, four of which are designated by the FNPF and three of which are designated by the Fiji government. Pursuant to the South Pacific Stock Exchange Listing Rules, at least one-third of directors must be "independent" directors. Currently one vacancy exists on the ATH board of directors. At the present time, only one ATH director is employed in the civil service, and the other five ATH directors are all employed in the private sector.
