**Subject:** RE: FCC, RE: World-Link, Inc.

Hello Ms. Downs, as per Ms. Sutton's email, please let this email serve as formal notice of our request to change the name that is listed for our 214 licensing information.

Currently, the FCC has the 214 license listed under the name of World-Link, Inc., with an old, invalid address of 42 Broadway, NY NY 10004. The 214 licensing info is listed as:

World Link Inc.'s 214 authorization, ITC-93-275, is a current 214 authorization.  
ITC-93-275 has been given a new IBFS file number,  
ITC-214-19930728-00129, so they are the same authorization.

We respectfully request that this name is changed to reflect our legal name and address as filed with the state of NJ which is:

World-Link Telecom, Inc., DBA OneStopTel, and our company address which is:

200 rector Place, suite 16D, NY NY 10280

Our FRN (FCC ID) number is 0010740520 and is the company name and address are correctly listed within the FCC FRN site (World-Link Telecom, Inc., DBA OneStopTel.)

Please let me know if this email will suffice or if you require anything additional. With regards and thanks, ps

Paul Stamoulis, President

Mr. Stamoulis,

Wireline Competition Bureau (WCB) handles USAC issues, so I have cc'd Greg Guice on this message so either he, or someone in WCB, can answer your questions regarding USAC.

Regarding the name on your 214 authorization: you indicate that your company has gone through a reorganization, which I assume is why your 214 authorization now has a new name. FCC regulations indicate that the applicant must notify the Commission of a reorganization that affects a 214 authorization. Therefore, you may need to file either a transfer of control or assignment application through IBFS giving us the details of the reorganization.

However, if the name change was not caused by a reorganization and is just a name change, you will need to file a letter via IBFS advising us of the name change and the effective date of the change. In addition, you will need to update your FRN to reflect the new name of your company. We will then publish your name change on an Actions Taken Public Notice as an informative.

Please contact Sumita Mukhoty at (202) 418-7165 if you need further assistance to determine whether you need to file either a transfer of control or assignment application.

If you need assistance in filing an application or name change, please contact Adrienne Downs at (202) 418-0412.

Ms. Sutton, Our company, World-Link Telecom, Inc. , is just now restarting our operation after a company reorganization (IRS CH11) so please forgive my ignorance to such matters.

The FCC has given us an FRN # 0010740520. Is this the number that we use for USAC filings or do we need to file certain additional paperwork to receive such a USAC number?

if we need an additional USAC number, is there an online site where we can file to receive such a number?

lastly, I see that the FCC 214 number is issues as World-Link Inc. while we are registered in the state of NJ and also received the FRN number as World-Link Telecom, Inc., DBA OneStopTel. Is there a way we can change the 214 license title to match our official state corporate title?  
thanks you in advance, ps

Mr. Stamoulis,

World Link Inc.'s 214 authorization, ITC-93-275, is a current 214 authorization. ITC-93-275 has been given a new IBFS file number, ITC-214-19930728-00129, so they are the same authorization.

Hi, I had the following licensing number for my company World-Link, Inc. and I cannot find it on your web site. Is this license still active?

World-Link, Inc.

FCC File no. ITC-93-275, date of grant not available, but it was sometime in 1993.

FCC File no. ITC-214-19930728-00129, date filed 7/28/1993, date of grant 9/19/1993

Thanks in advance. ps
