services. The specific authority granted in these authorizations has been subsumed by the Commission's April 11, 2006 more general grant of global facilities-based and resold Section 214 authority to Intelsat USA License Corp.<sup>1</sup> Accordingly, Intelsat USA License Corp. surrenders these sixteen authorizations, effective immediately.<sup>2</sup>

Intelsat USA License Corp. further notes that, because these international Section 214 authorizations are either obsolete or duplicative of Intelsat's other authorization, surrendering the authorizations neither "discontinu[e]s" service nor "affect[s]" customers within the meaning of the Federal Communications Commission's international discontinuance rule, 47 C.F.R. § 63.19(a).

Please direct any questions regarding this matter to Susan Crandall at (202) 944-7848 or to the undersigned.

Sincerely,

Jennifer D. Hindin

<sup>1</sup> International Authorizations Granted, Report No. TEL-01016, DA No. 06-842, File No. ITC-214-20051031-00443 (Apr. 13, 2006) (Public Notice).

<sup>2</sup> Following the surrender of these sixteen authorizations, Intelsat USA License Corp. will hold one global facilities-based and resale international Section 214 authorization (File No. ITC-20051031-00443) and two authorizations that involve service between the United States and Cuba (File Nos. ITC-92-141 and ITC-94-272). Intelsat USA License Corp.'s sister company, Intelsat General Corporation, also holds an international Section 214 authorization for global facilities-based and resale service (File No. ITC-214-20040528-00213). Each of these four authorizations prohibit the provision of common carrier switched services unless Intelsat USA License Corp. or Intelsat General Corporation requests and receives prior Commission approval. See File Nos. ITC-MOD-20050329-00170, ITC-MOD-20051007-00445 and ITC-214-20051031-00443.
