**APPLICATION FOR SECTION 214 AUTHORIZATION AND
CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY**

Pursuant to title II of the Communications Act of 1934, as amended,
ATLANTA NEW YORK WAREHOUSE OUTLETS, INC.D/B/A DNP
COMMUNICATIONS, ("Applicant" or "**DNP**"), a Georgia corporation, hereby
requests authority to operate both as a reseller and as a facilities-based provider
of international telecommunications services. **DNP** intends to provide
telecommunications services primarily through the resale of services offered by
other carriers initially and, later, as a facilities-based provider of international
telecommunications services.

In support of this Application, the following information is submitted:

1. Public Interest Considerations

The market for interexchange telecommunications services continues to be dominated by AT&T Communications. Directly related to that dominance are economies of scale and scope realized by AT&T which cannot be achieved by other interexchange carriers. In the face of such economies favoring the dominant carrier and the struggle to establish viable competition in the interexchange telecommunications market, it is essential that the Federal Communications Commission ("FCC" or "Commission") encourage market entry by non-dominant carriers seeking success in the interexchange market. This is particularly true in the instant case where **DNP** intends to offer a competitively priced interexchange service for its customers while providing high quality customer service.

Over the past several years, the commission has seen graphic evidence of cost-driven pressure on carriers endeavoring to maintain a viable position in the interexchange market, in competition with AT&T, through multiple consolidations of formerly independent interexchange carriers.

In this environment of scope/scale economies and cost-driven consolidations, **DNP** believes that the entrance of new carriers into the market for international telecommunications is essential to the maintenance of a viable competitive interexchange telecommunications market.

The management and operations expertise of the **DNP** team will enable **DNP** to begin offering competitive high-quality service immediately upon the grant of the authority requested herein first as a reseller, and eventually as a facilities-based provider, in selected markets. Thus,

Commission grant of this Application will significantly serve the public interest through enhanced competition in the market for interexchange telecommunications services through the addition of a well managed new entrant into the market.

II. FCC Authority Sought

The Applicant requests such authority as may be required under Title II of the Communications Act of 1934, as amended, specifically Section 214 of the Act and Part 63 of the Commission's Rules, for issuance of a Certificate of Public Convenience and Necessity to **DNP** to operate both as a reseller and as a facilities-based provider of telecommunications services between the United States on the one hand and those international points listed in **DNP**'s tariff designated Tariff F.C.C. No. 2 on the other hand. The Applicant requests that this Application be processed in accordance with the Commission's procedures for streamlined processing, 47 C.F.R. §63.12. Accordingly, **DNP** will hereafter address the criteria established by the Commission's Rules for approval of such a request.

To address the specific criteria established by Part 63 of the Commission's Rules for approval of the international authorization requested, the Applicant hereafter submits the information required by Section 63.18 of those rules. **DNP** notes that this Section 63.18 information is limited to the provision of international telecommunications services.

(d) Applicant has not previously received authority under Section 214 of the Communications Act of 1934.

(e) Applicant is requesting Section 214 authority to operate as a reseller of international basic switched, private line, data, television and business services pursuant to the terms and conditions of Section 63.18(e)2.

(f) Applicant is also requesting Section 214 authority to operate as a facilities-based carrier pursuant to the terms and conditions of paragraph 63.18(e)(1).

(g) Applicant does not propose to undertake any construction, extension, acquisition or operation of transmission facilities. Moreover, the proposed project is categorically excluded as defined by 47 CFR 1.1306, because the Applicant's proposal does not

<i>Prabhdeep Francis</i>	<i>134 E. Atlanta Highway Raldge, GA 30663</i>	<i>United States</i>	<i>Telecommunications</i>

- (j) No party to this Application is subject to a denial of federal benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988.

In summary, **DNP** submits that this Application is clearly non-controversial. The carrier for which Section 214 authority is sought will be one of a number of non-dominant carriers providing international service under the Commission's jurisdiction. Moreover, the vitality of the competitive market for international telecommunications services is dependent on Commission encouragement of new entrants into the market.

Attached are the Applicant's certifications that the Applicant is not affiliated with the U.S. facilities-based international carriers the Applicant will be reselling, is not affiliated with any foreign carrier, has agreed to not accept special concessions directly or indirectly from any foreign carrier, and has not been denied funds from the federal government under Section 53-01 of the Anti-Drug Abuse Act of 1988.

WHEREFORE, ATLANTA NEW YORK WAREHOUSE OUTLETS,
