APPLICATION FOR AUTHORITY

New Millennium ConQuest Service Corp. ("New Millennium ConQuest") hereby requests authority, pursuant to Section 214 of the Communications Act of 1934, as amended, 47 U.S.C. Section 214, and Section 63.01 of the Commission's Rules, 47 C.F.R. Section 63.01, to resell the international telecommunications services of other common carriers between the United States and various international points.

New Millennium ConQuest is a corporation organized under the laws of the state of Delaware. The company intends to resell the telecommunications facilities of other common carriers and is not a facilities-based carrier. New Millennium ConQuest's service will be offered for use by residential and business customers who subscribe to or casually access the company's interstate and/or intrastate services. Through its service, customers may originate calls from locations within the United States to other countries. The company seeks authority to resell international telecommunications services to better serve its customers by offering a full range of telecommunications products and services. By providing international calling services New Millennium ConQuest will be able to offer its customers valuable service at competitive rates.

International telecommunications services will be obtained by New Millennium ConQuest from other common carriers who are currently authorized by the Commission to provide international service. Initially, New Millennium ConQuest will only resell international switched services. However, New Millennium ConQuest requests authority to resell private line service in the future as contemplated under Section 63.18 (e) (2) and subject to the restrictions imposed therein.

The provision of international service by New Millennium ConQuest will not have any significant impact on the general provision of such service to the public. However, additional competition in the market - including the competition of New Millennium ConQuest - benefits consumers of international telecommunications services. The benefits of competition include lower prices and increased availability of a variety of service options. Thus, the grant of this authorization is consistent with the public interest.

In support of New Millennium ConQuest's request for authorization, the following information is submitted pursuant to Section 63.18 of the Commission Rules, 47 C.F.R. Section 63.18.

- (a) The name, address and telephone number of the applicant:

- (d) New Millennium ConQuest has not received previous authority under Section 214.
- (e) New Millennium ConQuest requests Section 214 Authority to operate as a resale carrier pursuant to the terms and conditions of Section 63.18(e)(2).
