telecommunications services. 2nd Century currently is authorized to provide alternative local exchange service within the state of Florida, and has an application pending to provide interexchange service within the state of Florida. 2nd Century has no affiliation with any foreign carrier in any of the destination countries for which authority is requested, nor is 2nd Century affiliated with any U.S. facilities-based carrier. Thus, pursuant to Section 63.10(a)(1) of the Commission's Rules, 2nd Century should be classified as a nondominant carrier in its provision of international service. Furthermore, this Application is entitled to streamlined processing under Section 63.12 of the Commission's Rules.

By granting this Application, the Commission will serve the public interest by promoting competition in the international telecommunications services market, which, in turn, should result in an increased number and variety of international service offerings as well as lower prices for U.S. consumers. Thus, the public interest will be served by a grant of international Section 214 authority to 2nd Century.
