In the Matter of
TeleSeas, Inc.
Application for authority pursuant to)
Section 214 of the Communications)
Act of 1934, as amended, to resell) File No. _____
service of other common carriers to)
provide telecommunications service as)
a nondominant carrier from the)

APPLICATION FOR AUTHORITY

TeleSeas, Inc. ("TeleSeas") hereby requests authority, pursuant to Section 214 of the Communications Act of 1934, as amended, 47 U.S.C. Section 214, and Section 63.01 of the Commission's Rules, 47 C.F.R. Section 63.01, to resell the international telecommunications services of other common carriers between the United States and various international points.

TeleSeas is a corporation organized under the laws of the state of Delaware. The company intends to resell the telecommunications services of other common carriers and is not a facilities-based carrier. Teleseas service will be offered for use by customers who subscribe to the company's interstate and/or intrastate services. Through Teleseas service, customers may originate calls from locations within the United States to other countries, and from foreign locations to terminate in the United States. The company seeks authority to resell international telecommunications services to better serve its customers by offering a full range of call termination options. By providing international calling services TeleSeas will be able to offer its customers valuable service at competitive rates.

International telecommunications services will be obtained by TeleSeas from other common carriers who are currently authorized by the Commission to provide international service. Initially, TeleSeas will only resell international switched services. However, TeleSeas requests authority to resell private line service in the future as contemplated under Section 63.18 (e) (2) and subject to the restrictions imposed therein.

The provision of international service by TeleSeas will not have any significant impact on the general provision of such service to the public. However, additional competition in the market - including the competition of TeleSeas - benefits consumers of international telecommunications services. The benefits of competition include lower prices and increased availability of a variety of service options. Thus, the grant of this authorization is consistent with the public interest.

In support of TeleSeas request for authorization, the following information is submitted pursuant to Section 63.18 of the Commission Rules, 47 C.F.R. Section 63.18.

(a) The name, address and telephone number of the applicant:

- (f) See (e) above.
- (g) TeleSeas does not seek facilities-based authority under Section 63.18(e)(6).

(h) TeleSeas certifies that it is not a foreign carrier nor is TeleSeas affiliated with any foreign carrier. Applicant further certifies that it has no affiliation with any U.S. Carriers whose facilities-based services TeleSeas proposes to resell. In support of this certification, TeleSeas submits the following information of its ten percent or greater direct and indirect shareholders or other equity holders.

(i) TeleSeas certifies that it has not agreed to accept special concessions directly or indirectly from any foreign carrier or administration with respect to traffic or revenue flows between the U.S. and any foreign country which the applicant may serve and will not enter into such agreements in the future.

(j) The Applicant certifies that neither TeleSeas nor any party to this application is subject to a denial of Federal benefits, as provided in the Anti-Drug Abuse Act of 1988, 21 U.S.C. 853a.

Conclusion

As demonstrated in this application, TeleSeas, Inc. is legally, financially and technically qualified to provide the services for which it requests authority. For the reasons stated above, applicant submits that the public interest, convenience and necessity would be furthered by a grant of this Section 214 application.
