- (d) The Applicant previously has neither requested, nor received, authority from the Commission pursuant to Title III of the Communications Act. The Applicant previously has

neither requested, nor received, authority from the Commission pursuant to Section 214 of the Communications Act.

(e)(1) The Applicant, pursuant to Section 63.18(e)(1) of the Commission's Rules, is requesting Section 214 authority to acquire interests in, and to operate, facilities previously authorized by the Commission for the provision of international basic switched, private line, data, television and business services to all international points.

Pursuant Section 63.18(e)(1)(ii)(A) of the Commission's Rules, the Applicant recognizes that it may provide facilities-based services to all international points for which the Applicant qualifies for non-dominant regulation as set forth in Section 63.10 of the Commission's Rules. The Applicant recognizes that if it is affiliated with a foreign carrier in a destination market and the Commission has not determined that the foreign carrier does not possess market power in the destination market, the terms and conditions of Section 63.10 will apply and the Applicant will require specific authority under Section 63.18(e)(6) of the Commission's Rules.

Pursuant to Section 63.18(e)(1)(ii)(B) of the Commission's Rules, the Applicant recognizes that it may only provide services using half-circuits on appropriately licensed U.S. common and non-common carrier facilities (either under Title III of the Communications Act or under the Submarine Cable Landing License Act, 47 U.S.C. § 34 *et seq.*), provided that these facilities do not appear on an exclusion list published by the Commission and any necessary overseas connecting facilities. The Applicant recognizes that it may not use any

non-U.S. licensed facilities unless and until the Commission specifically approves their use and so indicates on the exclusion list, and only then for service to the countries listed thereon.

Pursuant to Section 63.18(e)(1)(ii)(C) of the Commission's Rules, the Applicant recognizes that it may only provide services to any country not included on an exclusion list published by the Commission.

Pursuant to Section 63.18(e)(1)(ii)(E) of the Commission's Rules, the Applicant recognizes that the authority granted under Section 63.18(e)(1) will be subject to all Commission Rules and Regulations and any conditions that are stated in the Commission's forthcoming Public Notice or Order that serves as the Applicant's Section 214 Certificate of Authority, including, but not limited to, those set forth in Sections 63.12 and 63.21 of the Commission's Rules. The Applicant agrees to file copies of any operating agreements entered into with a foreign correspondent within thirty (30) days of execution, and will otherwise comply with the filing requirements of Section 43.51 of the Commission's Rules.

The Applicant recognizes that if it files an operating agreement to begin providing service between the United States and a foreign point and the rates, terms and conditions of such agreement are not identical to the rates, terms and conditions of another carrier providing the same or similar service, the Applicant must file a notification letter, pursuant to Section 64.1001 of the Commission's Rules, or a modification request, as appropriate. The Applicant recognizes that the notification letter must set forth the accounting rate(s), a statement that it will be divided 50:50 and the basis for settlements. The Applicant recognizes that no carrier providing such service shall bargain for or agree to accept more than its proportionate share of return traffic. The Applicant agrees to file tariffs for services authorized by this

application pursuant to Section 203 of the Communications Act, 47 U.S.C. § 203, and Part 61 of the Commission's Rules. The Applicant agrees to file annual reports of overseas telecommunications traffic pursuant to Section 43.61 of the Commission's Rules.

(e)(2) The Applicant, pursuant to Section 63.18(e)(2) of the Commission's Rules, is requesting authority to resell the international services of authorized U.S. common carriers for the provision of international basic switched, private line, data, television and business services to all international points.

Pursuant to Section 63.18(e)(2)(i)(A) of the Commission's Rules, the Applicant recognizes that it may resell the international services of any authorized U.S. common carrier to all international points for which the Applicant qualifies for non-dominant regulation as set forth in Section 63.10 of the Commission's Rules. The Applicant recognizes that if it (i) provides switched resold services to a non-WTO Member country where the Applicant is affiliated with a foreign carrier, or (ii) is affiliated with a foreign carrier in a destination market and the Commission has not determined that the foreign carrier does not possess market power in the destination market, the terms and conditions of Section 63.10 will apply and the Applicant will require specific authority under Section 63.18(e)(6) of the Commission's Rules.

Pursuant to Section 63.18(e)(2)(ii)(B) of the Commission's Rules, the Applicant recognizes that it may resell the international services of any authorized U.S. common carrier, except affiliated carriers regulated as a dominant carrier on the route to be served, pursuant to that carrier's tariff or contract duly filed with the Commission, for the provision

of basic switched, private line, data, television and business services to all international points.

Pursuant to Section 63.18(e)(2)(ii)(C) of the Commission's Rules, the Applicant recognizes that it may resell private line services for the provision of international basic switched services only in those instances where the Commission has specifically authorized such resale.

Pursuant to Section 63.18(e)(2)(ii)(D) of the Commission's Rules, the Applicant recognizes that the authority granted under Section 63.18(e)(2) will be subject to all Commission Rules and Regulations and any conditions that are stated in the Commission's forthcoming Public Notice or Order that serves as the Applicant's Section 214 Certificate of Authority, including, but not limited to, those set forth in Sections 63.12 and 63.21 of the Commission Rules. The Applicant agrees to file copies of any operating agreements entered into with a foreign correspondent within thirty (30) days of execution, and will otherwise comply with the filing requirements of Section 43.51 of the Commission's Rules. The Applicant recognizes that if it files an operating agreement to begin providing service between the United States and a foreign point and the rates, terms and conditions of such agreement are not identical to the rates, terms and conditions of another carrier providing the same or similar service, the Applicant must file a notification letter, pursuant to Section 64.1001 of the Commission's Rules, or a modification request, as appropriate. The Applicant recognizes that the notification letter must set forth the accounting rate(s), a statement that it will be divided 50:50 and the basis for settlements. The Applicant recognizes that no carrier providing such service shall bargain for or agree to accept more than its proportionate share

of return traffic. The Applicant agrees to file tariffs for services authorized by this application pursuant to Section 203 of the Communications Act, 47 U.S.C. § 203, and Part 61 of the Commission's Rules. The Applicant agrees to file annual reports of overseas telecommunications traffic pursuant to Section 43.61 of the Commission's Rules.

(e)(3) The Applicant is not requesting authority, pursuant to Section 63.18(e)(3) of the Commission's Rules, to provide basic switched services over resold private lines between the United States and countries not specifically authorized by the Commission for such resale.

(e)(4) Pursuant to Section 63.18(e)(4)(ii)(B) of the Commission's Rules, the Applicant recognizes that it may use private line facilities to provide basic switched services only in circumstances where the Commission has previously authorized the provision of switched services over private lines to the particular country at the foreign end of the private line. The Applicant recognizes that if it is affiliated with a foreign carrier in a destination market at the foreign end of the private line and the Commission has not determined that the foreign carrier does not possess market power in the destination market at the foreign end of the private line, the terms and conditions of Section 63.10 of the Commission's Rules will apply and the Applicant will require specific authority under Section 63.18(e)(6) of the Commission's Rules. The Applicant recognizes that the authority granted under Section 63.18(e)(4) will be subject to all Commission Rules and Regulations and any conditions that are stated in the Commission's forthcoming Public Notice or Order that serves as the Applicant's Section 214

Certificate of Authority, including, but not limited to, those set forth in Section 63.21 of the Commission's Rules.

The Applicant is not requesting authority, pursuant to Section 63.18(e)(4)(ii)(A) of the Commission's Rules, to provide international basic switched services over its authorized private line facilities between the United States and countries not specifically authorized by the Commission for such services.

The Applicant recognizes, pursuant to Section 63.18(e)(4)(ii)(B) of the Commission's Rules, that no formal application, in addition to the current application for authorization to acquire and operate international private line facilities, is required under Section 63.18(e)(4) when the Applicant's authorized private line facility is interconnected to the public-switched network only on one end -- either the U.S. or foreign end -- and where the Applicant is not operating the facility in correspondence with a foreign carrier that owns the private lines at the foreign end.

(e)(5) The Applicant is not requesting authority, pursuant to Section 63.18(e)(5) of the Commission's Rules, to acquire facilities through the transfer of control, or the assignment, of authorizations of a U.S. common carrier.

(e)(6) The Applicant is not requesting authority, pursuant to Section 63.18(e)(6) of the Commission's rules, to acquire facilities or to provide services not covered by Sections 63.18(e)(1) and (e)(2) of the Commission's Rules.

(f) The Applicant is not requesting any authority not subject to streamlined processing under Section 63.12 of the Commission's Rules.

(g) The Applicant is not requesting facilities-based authority under Section 63.18(e)(6) of the Commission's Rules. No new construction constituting a "major environmental action" under the Commission's Rules is contemplated. Thus, authorization of the facilities is categorically excluded from environmental processing under Section 1.1306 of the Commission's Rules.

(h)(1) The Applicant certifies that it is not affiliated, or has an affiliation, directly or indirectly, with any foreign carrier (facilities-based, resale, or otherwise) within the meaning of Section 63.18(h)(1) of the Commission's Rules.

(h)(2) In support of this certification, and pursuant to Section 63.18(h)(2) of the Commission's Rules, the Applicant provides the name, address, citizenship and principal business of sole shareholder that directly or indirectly controls 10 percent or more of Infolink, or other equity holders:

Name: Daniel E. Murphy
Address: Three Mill Road
Suite 104
Wilmington, DE 19806-2146
Telephone: (302) 427-1707
Citizenship: United States
Principal Business: President of Infolink
Ownership Interest: 100 percent (100%)

The Applicant certifies that it has no interlocking directorates.

(h)(3) The Applicant certifies that it is not affiliated, or has an affiliation, directly or indirectly through resale, with any U.S. carrier (dominant, non-dominant, facilities-based, resale or otherwise) within the meaning of Section 63.18(h)(1) of the Commission's Rules.

(h)(4) Pursuant to Section 63.18(h)(4) of the Commission's Rules, the Applicant recognizes that it is responsible for the continuing accuracy of its certification in paragraph (h)(3).

(h)(5) Not applicable. The Applicant is not requesting authority to operate as a U.S. facilities-based international carrier to a particular country where the Applicant is a foreign carrier in that country, or where directly or indirectly it controls a foreign carrier in that country, or where it has an affiliation with a foreign carrier within the meaning of Section 63.18(h)(1) of the Commission's Rules.

(h)(6) Not applicable. The Applicant is not requesting authority to resell the international switched or non-interconnected private line services of another U.S. carrier for the purpose of providing international communications services to a particular country where the Applicant is a foreign carrier in that country, or where directly or indirectly it controls a foreign carrier in that country, or where it has an affiliation with a foreign carrier within the meaning of Section 63.18(h)(1) of the Commission's Rules.

(h)(7) Not applicable. The Applicant is not requesting authority to resell the international switched services of an unaffiliated U.S. carrier for the purpose of providing international

communications services to a particular country where the Applicant is a foreign carrier in that country, or where directly or indirectly it controls a foreign carrier in that country, or where it has an affiliation with a foreign carrier within the meaning of Section 63.18(h)(1) of the Commission's Rules.

(h)(8) Not applicable. The Applicant is not affiliated with a foreign carrier in any country.

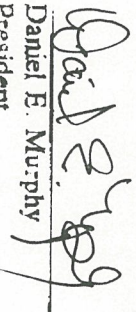

(i) The Applicant certifies that it has not agreed, and will not agree, to accept special concessions, within the meaning of Section 63.18(i) of the Commission's rules, directly or indirectly from any foreign carrier with respect to any U.S. international route where the foreign carrier possesses market power in the destination market. The Applicant recognizes that it is responsible for the continuing accuracy of its certification in this paragraph.

(j) The Applicant certifies that, pursuant to Section 63.18(j) and Sections 1.2001 through 1.2003 of the Commission's Rules, neither it nor any party to this application is subject to a denial of Federal benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C. § 853(a).

(k) All authorities sought by the Applicant in this application are subject to streamlined processing by the Commission under Section 63.12 of the Commission's Rules and should be granted accordingly.

In conclusion, Infolink certifies that all information contained in this application is accurate. For the reasons set herein, Applicant respectfully submits that the public interest, convenience and necessity will be served by a grant of this Application following streamlined processing.
