Re: Authority of Asian Internet and Telecommunications (AIT),  
for Section 214 International Global Facilities-Based  
Authority and Global Resale Authority

Dear Sir or Madam:

Enclosed for filing with the Commission are the original and six (6) copies of the application of Asian Internet and Telecommunications (AIT) for authority pursuant to Section 214 of the Communications Act. AIT is requesting 1) global facilities-based authority to acquire interests in unaffiliated, U.S. owned circuits and half-circuits in authorized facilities to provide international telecommunications services between the United States and all international points; 2) global authority to resell international, switched services of all unaffiliated carriers to provide international switched services between the United States and all international points served by those carriers; 3) global authority to resell international private lines to provide international, private line services between the United States and all international points; and 4) authority to resell international private lines interconnected to the public switched telephone network ("PSTN") at one or both ends to provide international, switched services between the United States and all countries found to offer equivalent resell opportunities to U.S. carriers.

As required by the Commission's Rules, enclosed is credit card payment in the amount of \$780.00, payable to the F.C.C. Please stamp-date the extra copy of this application and return it in the self-addressed, stamped envelope. Any questions regarding the enclosed application should be addressed to the undersigned.

Respectfully submitted,

Dewey Newman  
President

Enclosures

Before the  
FEDERAL COMMUNICATIONS COMMISSION  
Washington, D.C.

In the matter of	}	
Asian Internet and Telecommunications (AIT)	}	File No. I-T-C-99 _____
	}	
Application for authority pursuant to	}	
Section 214 of the Communications Act	}	
of 1934, as amended, for global authority	}	
to operate as a facilities-based carrier and	}	
as an international resell carrier	}	
	}	

AIT, by its undersigned president, hereby requests global authority, under Section 214 of the Communications Act of 1934, as amended, 47 U.S.C. & 214 (1996), and Section 63.18 of the Commission's Rules, C.F.R. & 63.18 (1996), to provide international telecommunications services between the United States and various international points.

I. The Proposed International Services

AIT requests four types of authority in this application, all of which are eligible for streamlined processing. AIT specifically requests (1) global facilities-based authority pursuant to Section 63.18 (e) (1), to acquire ownership interests in unaffiliated, U.S. licensed facilities to provide international telecommunications services between the United States and all international points; (2) authority pursuant to Section 63.18 (e) (2) of the FCC's Rules, 47 C.F.R. & 63.18 (e)(2), to resell international, switched services of all authorized carriers to provide international switched services between the United States and all international points served by those carriers; (3) global authority pursuant to Section 63.18 (e)(2)(a) of the FCC's Rules, 47 C.F.R. 7 63.18 (e)(2)(B), to resell international private lines to provide international private line services between the United States and all international points, other than those requiring special authority because of their listing on the mostly recent exclusion list; and (4) authority pursuant to Section 63.18 (e)(2)(B) of the FCC's Rules, 47 C.F.R. & 63.18 (e)(2)(B), to resell international, private lines interconnected to the public switched network ("PSN") at one or both ends to provide international switched services between the United States and all countries found to offer equivalent resell opportunities to U.S. carriers.

AIT is hereby requesting (a) facilities-based authority to obtain interests in U.S. authorized facilities, and connecting facilities not appearing on the Exclusion List; (b) authority to resell international private lines to provide international switched service between the United States and countries designated by the Commission to provide equivalent resell opportunities; and (c) authority to resell international, private lines to provide private line services to countries not appearing on the Exclusion List. AIT is a Virginia based carrier that is not affiliated with any foreign carriers or administrations as defined in Part 63 of the Commission's Rules.

AIT will report its acquisition of interest in facilities, including earth stations, channels of communication to satellites, and submarine cables in its circuit addition/circuit status report files under Section 43.82 of the Commission's Rules 47 C.F.R. & 43.82. AIT will also report its resell of international, switched services and international private lines to provide international private line and switched services in its traffic reports filed pursuant to Section 43.61 of the Commission's Rules.

AIT believes that the added competition which its expanded market entry will bring to the market will benefit the consumers of the United States overseas services. These benefits include competitive pricing and increased availability of a variety of service options. A grant of this application will therefore, further the public interest.

## II. The Applicant

AIT is a limited liability corporation organized and existing under the laws of Virginia. AIT is a privately held corporation and no AIT officer is an employee, agent, or representative of another foreign telecommunications entity. Further, AIT is not affiliated with any other foreign carriers as defined by Part 63 of the Commission's Rules.

AIT is a new entrant in the telecommunications industry which has not previously received authority under Section 214 to provide any telecommunications services or operate any facilities which provide such services. Upon the grant of this application, AIT will become an authorized non-dominant facilities-based carrier subject to Section 214 of the Communications Act, as amended, and the Commission's Rules.

## III. Public Interest Considerations

The Commission's publicly stated policy goals for the regulation of the United States international telecommunications market to promote effective competition in the communications market, including the market for international telecommunications

services, to prevent anti-competitive conduct in the provision for international services or facilities and to encourage foreign governments to open their communication markets. The Commission also has moved to establish an effective global communications market that could result in reduced rates, increased quality and new services. In addition, the Commission has found that effective competition directly advances the public interests and the Commission's paramount goal of making available a rapid, efficient, worldwide wire and radio communications service with adequate facilities at reasonable charges.

The grant of AIT's request for resale and facilities-based authority to provide international services will further the Commission's policies of facilitating increased competition within the U.S. international telecommunications services market and is therefore in the public interest.

#### **IV. Information Required Under Section 63.18**

As required under Section 63.18 of the Commission's Rules, AIT submits the following information:

- (a) Name and Address of Applicant  
Asian Internet and Telecommunications  
11689 Newbridge Ct.  
Reston, VA 20191
- (b) AIT is a corporation organized under  
the laws of the Commonwealth of Virginia
- (c) Address questions concerning this application to:  
Dewey L. Newman  
11689 Newbridge Court  
Reston, VA. 20191  
(703) 264-1363
- (d) AIT is a new entrant in the telecommunications industry.  
It has never received authority pursuant to Section 214 of the  
Communications Act of 1934, as amended, and under the  
Commission's Rules. AIT lacks market power that would  
allow control of prices to the detriment of market competition.
- (e) AIT requests Section 214 authority to: (1) operate as a  
facilities-based carrier pursuant to terms and conditions

of Section 63.18 (e)(1); and (2) operate as a resale carrier pursuant to the terms and conditions of Section 63.18 (e)(2). Specifically, AIT seeks to (1) acquire capacity in full and half-circuits in submarine cables, and establish channels of communication with U.S. owned satellite systems, to provide international telecommunications services between the U.S. and all international points; (2) resell the international services of all authorized common carriers, except affiliated carriers regulated as dominant on the route to be served to provide international telecommunications services between the U.S. and all international points; (3) resell international private lines to provide international private line services between U.S. and all international points; and (4) resell international private lines for the provision of international switched services between the U.S. and all countries that the Commission finds provide U.S. carriers with effective competitive opportunities.

(f) AIT does not seek authority to provide services which are not referenced under paragraph (e) of Section 63.18 of the Commission's Rules.

(g) The authority requested in this application is categorically excluded from environmental processing as defined by Section 1.306 of the Commission's Rules, 47 C.F.R. & 1.306, obviating the need for an environmental assessment.

(h) AIT certifies that it is not affiliated, either directly or indirectly, with any foreign carrier (as that part is defined in Part 63 of the Commission's Rules) or with any U.S. carriers whose facilities-based services it proposes to resell. Should the substance of the certification cease to be true, AIT shall notify the Commission immediately of any affiliation with any foreign carrier or any U.S. carriers whose services AIT seeks to resell.

(i) Individuals holding 10% or greater ownership or management interest in the corporation follow:

<u>Name</u>	<u>Address</u>	<u>%</u>	<u>Citizen</u>	<u>Occupation</u>
Bobbie R. Newman	11689 Newbridge Ct. Reston, VA 20191	17%	U. S.	Teacher

Dewey L. Newman 11689 Newbridge Ct 17% U. S. Telcom  
Reston, VA

Roy Lin 1563 42nd Av 33% Taiwan Telcom  
San Francisco, CA 94122

George Hsu 296 20th Av 33% U. S. Importer  
San Francisco, CA 94121

(j) As required by Section 63.18 (1) of the Commission's Rules, 47 CFR, AIT certifies that it has not agreed to accept, nor shall it accept in the future, any special concessions as defined by the Commission's rules, directly or indirectly from any foreign carrier or administration with respect to traffic or revenue flows between the U. S. and any foreign country for which AIT may be authorized to serve.

**CONCLUSION:** AIT is legally, financially, and technically qualified to provide the services for which it requests authority. For the reasons stated above, AIT affirms that the public interest, convenience, and necessity will be furthered by a grant of this Section 214 application.

Respectfully Submitted By:

  
Dewey L. Newman, President

Date 5/14/99

## CERTIFICATION

I hereby certify that is not affiliated with any other, foreign carrier. AIT is not affiliated with any facilities-based carrier whose services it intends to resell.

AIT has not agreed to accept special concessions directly or indirectly from any foreign carrier or administration with respect to traffic or revenue flows between the U.S. and any foreign country which AIT may serve under the authority granted under this part and will not enter into such arrangements in the future. To the best of my knowledge and belief, all statements made in this application are true and correct.

  
Dewey L. Newmyn, President

Date 5/14/99

**ANTI-DRUG ABUSE CERTIFICATION**

Applicant certifies that, to the best of its knowledge, information, and belief, neither applicant nor any party to this application is subject to a denial of federal radio licenses under Section 5301 of the Anti-Drug Abuse Act of 1988.

Respectfully submitted,

By:   
Dewey L. Newman, President,  
Asian Internet and Telecommunications
