APPLICATION FOR AUTHORITY

Corporate Billing Management, Inc. ("Corporate Billing Management") hereby requests authority, pursuant to Section 214 of the Communications Act of 1934, as amended, 47 U.S.C. Section 214 (1988), and Section 63.18 of the Commission's Rules, 47 C.F.R. Section 63.18 (1992), to resell the international message communications services of other common carriers between the United States and various international points.

Corporate Billing Management is a corporation organized under the laws of the state of Minnesota. Corporate Billing Management has no foreign affiliations. The company intends to resell the telecommunications facilities of other common carriers and is not a facilities-based carrier. Corporate Billing Management's service will be offered nationwide. Through its service, customers may originate calls nationwide or in other countries for termination in the United States or to other countries. The company seeks authority to resell international telecommunications services to better serve its customers by offering a full range of telecommunications products and services. By providing international calling services Corporate Billing Management will be able to offer its customers a valuable service at competitive rates.

International telecommunications services will be obtained by Corporate Billing Management from other currently authorized common carriers. Corporate Billing Management will resell the services of other facilities-based carriers that have obtained authorization from this Commission.

The provision of international services by Corporate Billing Management will not have any significant impact on the general provision of such service to the public. Additional competition in the market, however, benefits consumers of international telecommunications services. The benefits of competition include lower prices and increased availability of a variety of service options. The grant of this authorization will increase competition in the market. Thus, the grant of this authorization is consistent with the public interest.
