APPLICATION FOR AUTHORITY

Strategic International Telecom, Ltd. ("Sitel") hereby requests authority, pursuant to Section 214 of the Communications Act of 1934, as amended, 47 U.S.C. Section 214, and Section 63.01 of the Commission's Rules, 47 C.F.R. Section 63.01, to resell the international telecommunications services of other common carriers between the United States and various international points.

Strategic International Telecom, Ltd. is a corporation organized under the laws of the state of Nevada. The company intends to resell the telecommunications services of other common carriers and is not a facilities-based carrier. Strategic International Telecom's service will be offered for use by residential consumers, business customers with foreign offices, foreign firms with US operations, or other individuals and entities who subscribe to the company's interstate and/or intrastate services. Through Sitel's service, customers may originate calls from locations within the United States to other countries, and from foreign locations to terminate in the United States. The company seeks authority to resell international telecommunications services to better serve its customers by offering a full range of call termination options. By providing international calling services Strategic International Telecom will be able to offer its customers valuable service at competitive rates.

International telecommunications services will be obtained by Strategic International Telecom from other common carriers who are currently authorized by the Commission to provide international service. Initially, Strategic International Telecom will only resell international switched services. However, Strategic International Telecom requests authority to resell private line service in the future as contemplated under Section 63.18 (e) (2) and subject to the restrictions imposed therein.

The provision of international service by Strategic International Telecom will not have any significant impact on the general provision of such service to the public. However, additional competition in the market - including the competition of Strategic International Telecom - benefits consumers of international telecommunications services. The benefits of competition include lower prices and increased availability of a variety of service options. Thus, the grant of this authorization is consistent with the public interest.

In support of Strategic International Telecom's request for authorization, the following information is submitted pursuant to Section 63.18 of the Commission Rules, 47 C.F.R. Section 63.18.

(a) The name, address and telephone number of the applicant:

(b) Strategic International Telecom, Ltd. is a corporation organized under the laws of Nevada on June 16, 1997.

- (n) Strategic International Telecom, Ltd. certifies that it has not agreed to accept special concessions directly or indirectly from any foreign carrier with respect to any U.S. international route, where the foreign carrier possesses sufficient market power on the foreign end of the route to affect competition adversely in the U.S. market, and will not enter into such agreements in the future.
- (o) Strategic International Telecom, Ltd. certifies that neither Strategic International Telecom nor any party to this application is subject to a denial of Federal benefits, as provided in the Anti-Drug Abuse Act of 1988, 21 U.S.C. 853a.

In support of this request, Strategic International Telecom, Ltd. states that it is not affiliated with a foreign carrier in a destination market, is not affiliated with a dominant U.S. carrier whose international switched or private line services it plans to resell, nor does it seek authority to provide switched basic services over private lines to a country for which the Commission has not previously authorized the provision of switched services over private lines.
