**APPLICATION**

Pioneer Communications LLC (“Pioneer”) hereby applies, pursuant to Section 214 of the Communications Act of 1934, as amended, 47 U.S.C. § 214, and Section 63.18 of the Commission’s Rules, 47 C.F.R. § 63.18, for authority to: (1) acquire capacity in any international facilities previously authorized by the Commission for the provision of International Message Telephone Service (“IMTS”) and international private line (“IPL”) service between the United States and all authorized international points; (2) resell the IMTS of U.S. carriers for the provision of switched telecommunication services between the United States and all authorized international points; (3) resell the IPL services of U.S. carriers for the provision of private line services not interconnected to the public switched network between the United States and all authorized international points; and (4) resell the IPL services of U.S. carriers for the provision of switched telecommunication services, interconnected to the public switched network at one or

both ends, between the United States and all authorized international points.

## **I. Introduction**

Through this application, Pioneer, a Delaware limited liability company, seeks authority to provide international services as a facilities-based and resale carrier between the United States and all authorized international points. The public interest in more competitive and economical international communication services is well established and has been addressed by the Commission in numerous decisions. Pioneer therefore submits that streamlined grant of this application is in the public interest.
