File No. \_\_\_\_\_

**APPLICATION FOR AUTHORITY**

LineDrive Communications Inc. ("LineDrive") hereby requests authority, pursuant to Section 214 of the Communications Act of 1934, as amended, 47 U.S.C. Section 214, and Section 63.01 of the Commission's Rules, 47 C.F.R. Section 63.01, to resell the international telecommunications services of other common carriers between the United States and various international points.

LineDrive is a corporation organized under the laws of the state of Delaware. The Company intends to resell the telecommunications services of other common carriers and is not a facilities-based carrier. LineDrive's service will be offered for use by residential consumers, business customers with foreign offices, foreign firms with US operations, or other individuals and entities who subscribe to the company's interstate and/or intrastate services. Through LineDrive's service, customers may originate calls from locations within the United States to other countries, and from foreign locations to terminate in the United States. The Company seeks authority to resell international telecommunications services to better serve its customers by offering a full range of call termination options. By providing international calling services LineDrive will be able to offer its customers valuable service at competitive rates.

International telecommunications services will be obtained by LineDrive from other common carriers who are currently authorized by the Commission to provide international service. Initially, LineDrive will only resell international switched services. However, LineDrive requests authority to resell private line service in the future as contemplated under Section 63.18 (e) (2) and subject to the restrictions imposed therein.

The provision of international service by LineDrive will not have any significant impact on the general provision of such service to the public. However, additional competition in the market - including the competition of LineDrive - benefits consumers of international telecommunications services. The benefits of competition include lower prices and increased availability of a variety of service options. Thus, the grant of this authorization is consistent with the public interest.

In support of LineDrive's request for authorization, the following information is submitted pursuant to Section 63.18 of the Commission Rules, 47 C.F.R. Section 63.18.

- (a) The name, address and telephone number of the applicant:

David Mould, Managing Director  
LineDrive Communications Inc.  
4600 Emperor Boulevard  
Morrisville, North Carolina 07560

- (b) LineDrive was incorporated under the laws of the state of Delaware on June 14, 1999.

(c) Correspondence concerning this application should be sent to:

Ms. Mary Ellen Perry

- (d) LineDrive Communications Inc. has not received previous authority under Section 214.
- (e) LineDrive requests Section 214 Authority to operate as a resale carrier pursuant to the terms and conditions of Section 63.18(e)(2). Specifically, LineDrive proposes to resell the international services of any authorized common carrier pursuant to tariff or contract duly filed with the Commission, for the provision of international basic switched, private line, data, television and business service to all international points, as authorized by the Commission.
- (f) See (e) above.
- (g) LineDrive does not seek facilities-based authority under Section 63.18(e)(4).

- (h) LineDrive certifies that it is not a foreign carrier. LineDrive is wholly owned by Nortel Networks, Inc., a Canadian telecommunications equipment manufacturer. Applicant further certifies that it has no affiliation with any U.S. Carriers whose facilities-based services LineDrive proposes to resell. In support of this certification, LineDrive submits the following information of its ten percent or greater direct and indirect shareholders or other equity holders:
- LineDrive Communications Inc. is 100% owned by Nortel Networks, Inc. Nortel Networks Inc. is 100% owned by Nortel Networks Corporation. Nortel Networks Corporation is 39% owned by BCE Incorporated. BCE Incorporated is the only shareholder of Nortel Networks Corporation with more than ten percent equity in Nortel Networks Corporation. No one individual owns ten percent or more of the shares of BCE Incorporated.
- (i) LineDrive Communications Inc. certifies that it is not a foreign carrier nor is it affiliated with any foreign carrier.
- (j) LineDrive Communications Inc. certifies that it is not a foreign carrier, nor does it control a foreign carrier as defined in Section 63.09(d), in any country. LineDrive Communications Inc. further certifies that no owner controls a foreign carrier in any country. Finally, LineDrive Communications Inc. certifies that no two or more foreign carriers, or parties that control foreign carriers, own more than 25% of the applicant, or are parties to or beneficiaries of a contractual relation affecting the provision or marketing of international basic telecommunications services in the United States.
- (k) See (j) above.
- (l) See (j) above.

- (m) See (j) above.
- (n) LineDrive Communications Inc. certifies that it has not agreed to accept special concessions directly or indirectly from any foreign carrier with respect to any U.S. international route, where the foreign carrier possesses sufficient market power on the foreign end of the route to affect competition adversely in the U.S. market, and will not enter into such agreements in the future.
- (o) LineDrive Communications Inc. certifies that neither LineDrive Communications Inc. nor any party to this application is subject to a denial of Federal benefits, as provided in the Anti-Drug Abuse Act of 1988, 21 U.S.C. 853a.
- (p) LineDrive Communications Inc. requests streamlined processing of this application pursuant to Section 63.12. In support of this request, LineDrive Communications Inc. states that it is not affiliated with a foreign carrier in a destination market, is not affiliated with a dominant U.S. carrier whose international switched or private line services it plans to resell, nor does it seek authority to provide switched basic services over private lines to a country for which the Commission has not previously authorized the provision of switched services over private lines.

## Conclusion

As demonstrated in this application, LineDrive Communications Inc. is legally, financially and technically qualified to provide the services for which it requests authority. For the reasons stated above, applicant submits that the public interest, convenience and necessity would be furthered by a grant of this Section 214 application.

Dated this 10 day of April 2000.
