\_\_\_\_\_

Applicant requests streamlined processing of this Application in accordance with Section 63.12 of the Commission's rules, 47 C.F.R. §63.12, as Applicant is not affiliated with any foreign carrier. In support of this Application, Applicant submits the following information:

**I. THE APPLICANT**

**A. BroadStreet Communications International, L.L.C.**

BCI is a limited liability company formed under the laws of the State of Delaware on May 3, 2000 to facilitate the offering of international long distance service. BCI is comprised of a sole member, BroadStreet Communications, Inc. ("BroadStreet"), a Delaware corporation. BCI does not have any subsidiaries or assets at this time. BCI has no foreign affiliations.

BCI's sole member, BroadStreet provides a broad range of intrastate and interstate telecommunications services, and has pending applications for authority to provide local exchange telecommunications service, interexchange telecommunications service, and access services, including dedicated and switched access services, in several jurisdictions. The parent company of BroadStreet is BroadStreet Communications, L.L.C, a Delaware limited liability company. BroadStreet is affiliated with BroadStreet Communications of Virginia, L.L.C, which is a wholly-owned subsidiary of BroadStreet, and a sister subsidiary of BCI, that intends to provide intrastate telecommunications services in Virginia.

**II. PUBLIC INTEREST CONSIDERATIONS**

Applicant believes that significant potential exists for continued growth in the global international facilities-based and resale telecommunications service markets between the United States and all permissible international points, and that this market expansion will be enhanced by competition with new entrants such as BCI. Competition will benefit customers in the United

States by increasing service options and lowering prices. Applicant is legally, financially and technically qualified to provide global international facilities-based and resale telecommunications services between the United States and all permissible international points. Accordingly, Applicant submits that the public interest, convenience and necessity would be furthered by granting the instant Application. The Commission should therefore grant Applicant's request for authority to provide global international facilities-based and resale telecommunications services between the United States and all permissible international points.
