APPLICATION FOR AUTHORITY

T-NETIX Internet Services, Inc. ("T-NETIX") hereby requests authority, pursuant to Section 214 of the Communications Act of 1934, as amended, 47 U.S.C. Section 214, and the Commission's Rules governing authorization of international carriers, 47 C.F.R. Section 63.09 et seq., to resell the international telecommunications services of other common carriers between the United States and various international points.

T-NETIX Internet Services, Inc. is a corporation organized under the laws of the state of Colorado. The company intends to resell the telecommunications services of other common carriers and is not a facilities-based carrier. T-NETIX Internet Services, Inc.'s service will be offered for use by residential consumers, business customers with foreign offices, foreign firms with US operations, or other individuals and entities who subscribe to the company's interstate and/or intrastate services. Through T-NETIX's service, customers may originate calls from locations within the United States to other countries, and from foreign locations to terminate in the United States. The company seeks authority to resell international telecommunications services to better serve its customers by offering a full range of call termination options. By providing international calling services T-NETIX Internet Services, Inc. will be able to offer its customers valuable service at competitive rates.

International telecommunications services will be obtained by T-NETIX Internet Services, Inc. from other common carriers who are currently authorized by the Commission to provide international service. Initially, T-NETIX Internet Services will only resell international switched services. However, T-NETIX Internet Services, Inc. requests authority to resell private line service in the future as contemplated under Section 63.18 (e) (2) and subject to the restrictions imposed therein.

The provision of international service by T-NETIX Internet Services, Inc. will not have any significant impact on the general provision of such service to the public. However, additional competition in the market - including the competition of T-NETIX Internet Services, Inc. - benefits consumers of international telecommunications services. The benefits of competition include lower prices and increased availability of a variety of service options. Thus, the grant of this authorization is consistent with the public interest.

In support of T-NETIX Internet Services, Inc.'s request for authorization, the following information is submitted pursuant to Section 63.18 of the Commission Rules, 47 C.F.R. Section 63.18.

(a) The name, address and telephone number of the applicant:

- (p) T-NETIX Internet Services, Inc. certifies that neither T-NETIX Internet Services, Inc. nor any party to this application is subject to a denial of Federal benefits, as provided in the Anti-Drug Abuse Act of 1988, 21 U.S.C. 853a.

In support of this request, T-NETIX Internet Services, Inc. states that it is not affiliated with a foreign carrier in a destination market, is not affiliated with a dominant U.S. carrier whose international switched or private line services it plans to resell, nor does it seek authority to provide switched basic services over private lines to a country for which the Commission has not previously authorized the provision of switched services over private lines.

Conclusion

As demonstrated in this application, T-NETIX Internet Services, Inc. is legally, financially and technically qualified to provide the services for which it requests authority. For the reasons stated above, applicant submits that the public interest, convenience and necessity would be furthered by a grant of this Section 214 application.
