Attachment One

Vortex Technologies, Inc. requests streamlined processing for our 214 Application. Application for authority to provide services in accordance with Sections 63.18 and 63.16 of the rules to provide switched services via international private lines interconnected to the public switched networks at one or both ends (ISR) between the United States and other countries not on the embargo or restricted sanction lists.

Vortex Technologies, Inc. is an international reseller of Internet and telecommunications services to rural and remote regions of the globe not currently serviced by terrestrial means (either fiber or cable). Our main business model is built upon satellite delivery of services from terrestrially connected teleports in the US, Europe, and Asia. When and where possible we will deliver capabilities via ground based fiber via reseller agreements with other providers. We do not provide dominant services in any marketplace and provide only wholesale bandwidth sales to providers in international regions.

Vortex Technologies, Inc. has not previously applied for nor received any authorizations under Section 214 of the Act.
