Application for Authority Pursuant to) **File No.**
Section 214 of the Communications Act of)

APPLICATION FOR AUTHORITY

Pacific Communication Network ("Pacific"), hereby requests authority, pursuant to Section 214 of the Communications Act of 1934, as amended, 47 U.S.C. Section 214 (1982), and Section 63.12 of the Commission's Rules, 47 C.F.R. Section 63.12, for global authority to provide facilities based international switched communications services, including international basic switched, private line, data, television and business services and to resell the international services of other common carriers for the provision of such services.

Pacific's provision of international service will not have any significant impact on the general provision of such service to the public. Additional competition in the market - including the competition Pacific will provide - benefits consumers of international telecommunications services. The benefits of competition include lower prices and increased availability of a variety of service options. Pacific submits therefore, that grant of this application will serve the public interest, convenience and necessity and requests that it be processed pursuant to the streamlined procedures applicable to non-dominant carriers. See §63.12 of the Commission's Rules, 47 C.F.R. §63.12. Pursuant to §63.18 of the Commission Rules, 47 C.F.R. §63.18, Pacific submits the following in support of its request for authorization.

(a) Name and address:

Pacific Communication Network
1055 Corporate Center Drive
Suite 330
Monterey Park, CA 91754

(b) Pacific is incorporated under the laws of the state of California.

(c) Correspondence concerning this application should be sent to:

(d) Pacific has not previously received authority under §214 and will be a non-dominant carrier subject to Section 214 of the Communications Act of 1934, as amended, 47 U.S.C. §214 (1982) as a result of the proposed international operations.

(e) Pacific is requesting Section 214 authority to operate as a facilities-based carrier pursuant to the terms and conditions of §63.18(e)(1) and to operate as a resale carrier pursuant to 63.18(e)(2) of the Commission's Rules, 47 C.F.R. §63.18(e)(1) and (2).

(f) Pacific certifies that it will comply with the terms and conditions contained in §§63.21, 63.22 and 63.23 as adopted in 1998 Biennial Regulatory Review - Review of International Common Carrier Authorizations, FCC 99-51, released March 23, 1999, 64 Fed. Reg. 19057-15067, April 19, 1999.

- (g) The public interest, convenience and necessity will be served by the grant of this application. Grant of this application will bring to the marketplace a variety of alternative competitive international telecommunications services. Consumers of telecommunications services will benefit from the increased price competition and the increased availability of services.
- (h) Pacific certifies that it has no affiliation with any domestic or foreign carrier.
- (i) Pacific certifies that it has not agreed to accept special concessions, directly or indirectly, from any foreign carrier or administration with respect to traffic or revenue flows between the U.S. and any foreign country which Pacific may serve under the authority requested herein and that it will not enter into such agreements in the future.
- (j) Pacific's 10% or greater shareholders are:

| Name/Address | % | Citizenship | Principal Business |
|--------------|-----|----------------------------|--------------------|
| Hao Rong | 40% | People's Republic of China | Telecommunications |
| Cai Ming Gu | 60% | People's Republic of China | Telecommunications |

The remainder of this page is intentionally left blank.

CONCLUSION

As demonstrated in this application, Pacific Communication Network is legally, financially and technically qualified to provide the services for which it requests authority. For the reasons stated above, Pacific submits that the public interest, convenience and necessity would be furthered by a grant of this Section 214 application.

Respectfully submitted,

Pacific Communication Network
