

Velocity Networks of Kentucky, Inc.
ITC-214-20010308-00131

Velocity Networks of Kentucky, Inc. (“Velocity Networks”) has not made use of its International Section 214 Authorization for Global Resale to resell international toll services for well over a year. At this time, Velocity Networks is preparing to have its stock acquired by an entity, Rural Broadband Consulting, Inc., that does not want or need the Velocity Networks International Section 214 Authorization. Therefore, Velocity Networks is surrendering the subject authorization that it has not been using and that it will not need during the future.
