Application for authority pursuant to)

Act of 1934, as amended, to resell) File No. _____
service of other common carriers to)
provide telecommunications service as)

APPLICATION FOR AUTHORITY

The Zone, Inc. hereby requests authority, pursuant to Section 214 of the Communications Act of 1934, as amended, 47 U.S.C. Section 214, and Section 63.01 of the Commission's Rules, 47 C.F.R. Section 63.01, to resell the international telecommunications services of other common carriers between the United States and various international points.

The Zone, Inc. is a corporation organized under the laws of the state of Arizona. The Company intends to resell the telecommunications services of other common carriers and is not a facilities-based carrier. The Zone, Inc.'s service will be offered for use by residential consumers, business customers with foreign offices, foreign firms with US operations, or other individuals and entities who subscribe to the Company's interstate and/or intrastate services. Through The Zone, Inc.'s service, customers may originate calls from locations within the United States to other countries, and from foreign locations to terminate in the United States. The Company seeks authority to resell international telecommunications services to better serve its customers by offering a full range of call termination options. By providing international calling services The Zone, Inc. will be able to offer its customers valuable service at competitive rates.

International telecommunications services will be obtained by The Zone, Inc. from other common carriers who are currently authorized by the Commission to provide international service. Initially, The Zone, Inc. will only resell international switched services. However, The Zone, Inc. requests authority to resell private line service in the future as contemplated under Section 63.18 (e) (2) and subject to the restrictions imposed therein.

The provision of international service by The Zone, Inc. will not have any significant impact on the general provision of such service to the public. However, additional competition in the market - including the competition of The Zone, Inc. - benefits consumers of international telecommunications services. The benefits of competition include lower prices and increased availability of a variety of service options. Thus, the grant of this authorization is consistent with the public interest.

In support of The Zone, Inc.'s request for authorization, the following information is submitted pursuant to Section 63.18 of the Commission Rules, 47 C.F.R. Section 63.18.
