Ms. Sutton:

We applied for a facilities based 214 modification to this 214 however the FCC issued a new 214. The 214 we are surrendering is a duplicate.

Regards,

Byron allen
CEO

Subject: Your Request to Surrender your International 214 Authorization

Mr. Allen,

We have received your letter filed July 15, 2009, requesting that we surrender your 214 authorization (ITC-214-20020906-00430) for NovoLink Communications Inc. Before we can do so, we must have the following additional information:

- Why are you surrendering your 214 authorization?
- When did you discontinue providing services to your customers?
- Did you recently have a customer base? If so, you should have notified your customers that you would not be providing services; please provide us a copy of this notification to your customers.

If you have any questions, please don't hesitate to contact me.

JoAnn Sutton
