The TCP's application (ITC-214-20060509-00389) will be placed on the Public Notice to be released on August 18, 2006, and will be auto-granted on September 1, 2006. However, this authorization does NOT permit TCP to provide services to Cuba. this

As I explained to you over the telephone, separate authorization is required in order to provide services to Cuba. Please see Report No. I-6831 (released July 27, 1993): General policy guidelines for implementation of the telecommunications provision of the Cuban Democracy Act (CDA). Moreover, the order, DA 05-699 (released March 17, 2005), granted Allied Communications International, Inc.'s application (ITC-214-20031121-00528) to provide service between the United States and Cuba may be helpful to you.
