IP-Enabled Services NPRM.FCC-0...

Dear Ms. Isales:

Commission has not its Notice authority under section 214. to provide "telecommunications" services. If TCP Technologies will not be "telecommunications" services, but rather "information" services, then it stated in my previous e-mail, of Proposed Rulemaking regarding IP-Enabled Services (attached). has not reached any conclusions in that proceeding yet. The Commission discussed this issue and how to treat an international section 214 authorization is be providing would not required VOIP need in

You and TCP Technologies will have to decide whether proposes to provide to Cuba are "telecommunications" 20 the "information" services TCP services Technologies

withdraw your Technologies does not If you decide section that they are "information" services, and thus it i 214 application (ITC-214-20060909-00434). is your opinion that TCP services, we ask that you

previously. You can contact eith Division for further information. mitigation showing, since we have not granted access previously. You can contact either Scott Kotler or I particular, the lett There would need to that you might also wish Information about earth station licensing is available TCP Technologies will need an earth station license letters from USTR that we have received concerning be an ECOSAT showing concerning the satellite, to look at the Newcom and MCI to Karl Kensinger for on the IB web site. applications on IBFS, provide the proposed services satellite, as well as a debr the Intersputnick satellite Kensinger in the Satellite those applications as well as a debri I understand and, debris

Consequently we do not know that afterwards. You will I do not know the details of the process You will have if you you need the to deal witl with for receiving permission ne earth station license 1 OFAC no that license issue. first to negotiate with 20 can apply Cuba. for

I.

Here are the answers to your questions:

1. Has the FCC made any decision as to whom has jurisdiction over VOIP?

In 2004 the Commission adopted an order preempting state regulatory authority over VOIP. The order is Vonage Holdings Corporation, Petition for Declaratory Ruling Concerning an Order of the Minnesota Public Utilities Commission, WC Docket No. 03-211, Memorandum Opinion and Order, 19 FCC Rcd 22404 (2004).

microwave link? 2. Has any company ever applied for an alternative method to send traffic to Cuba, such as underwater cable or a

We are not aware of any submarine cables or microwave links between the U.S. and Cuba. The direct voice circuits between the U.S. and Cuba are via satellite, but those circuits have been deactivated due to an ongoing dispute between the U.S. and Cuban governments. Current service between the U.S. and Cuba is routed through third countries.

Dear Mr. Krech:

Re: Questions

We have spoken several times by phone. My name is Phoebe Forsythe Isales, a telecommunications attorney practicing in San Juan, Puerto Rico

I have two questions to ask you and would appreciate it if you could send your answer by e-mail

- Has the FCC made any decision as to whom has jurisdiction over VOIP?
- microwave link? Has any company ever applied for an alternative method to send traffic to Cuba, such as underwater cable or a

As always thank you for your cooperation.

Cordially, Phoebe Forsythe Isales

Subject: RE: TCP's Cuba application

Susan,

I've talked with Mr. Rodriguez and showed him where to file his withdrawal letter. If he has problems when he actually files it, I've suggested he call either Adrienne (via the IBFS Help Desk) or me.

Subject: TCP's Cuba application

JoAnn: Could you please call Mr. Sigfrido Rodriguez to talk him through filing via IBFS the withdrawal of TCP Technologies Inc.'s application for service to Cuba (ITC-214-20060909-00434). His cell phone # is 787-564-0967. He's very nice!

FYI: The company is still operating. I informed him that, so long as TCP was operating only as described in the application, as supplemented (i.e., delivering only "Internet" traffic to Cuba, although I think they are providing "Internet" and VOIP), there is currently no requirement for the company to obtain intl 214 authority. H said he still has his OFAC license. The supplement he filed also indicates that the arrangement was found "permissible" by State and there is no settlement rate between the company and ETECSA. He
