Mikelle:

Per your e-mail below, FCC sent letters to ten applicants notifying them that they must advise FCC on the status of their applications with the Executive Branch agencies. I believe the deadline expired on March 18 – can we expect some (if not all) of these applications to be dismissed via public notice in the near future?

Also, according to our records, the Executive Branch agencies have not received responses from several other applicants – would FCC be willing to send similar letters to the below listed applicants? It would be helpful for us to be able to clear our docket of these relatively older, non-responsive applications:

Ms. Morra and Members of Team Telecom,

Please note that the Team Telecom requested answers for Eymol Corp. were emailed to Mr. Greg Pinto of Team Telecom. Those emails were provided via email on April 22, 2008 (see attachment# 1 for email response to Team Telecom) in response to a request by Team Telecom for certain required answers or have the company's FCC 214 petition be dismissed without prejudice (see attachment# 3 for April 2008 request from FCC & Team Telecom).

See attached email and document for prior submitted items as part of the company's effort to comply with the requested information. Please note that those items were emailed to Mr. Pinto of Team Telecom. We realize that there was recently a transfer of many of the team telecom duties / items from Mr. Greg Pinto to other members of team telecom and have been forwarding prior items sent to Mr. Pinto, over to the other members of team telecom upon receiving any such requests from those other team telecom members.

We would appreciate any consideration that could be given to this dismissed item since we had submitted the requested items to Team Telecom on April 22, 2008 and were under the impression it was in process.

Best Regards,

Alonzo

Subject: RE: Eymol Corp. - AB Email to FCC & Team Telecom - RE: Dismissal Notice

Mr. Beyene,

On March 31, 2008, I sent a letter to Mr. Eybar Molina, with a copy to Mathew Schulman, Regnum Group, regarding the pending international section 214 application filed by Eymol Corp. -- ITC-214-20061013-00470. That letter requested that Mr. Molina inform the FCC no later than April 21, 2008 of the status of the application in the Executive Branch review process and to confirm that Eymol continued to seek Commission action on the application. It specifically advised the applicant that failure to respond would subject the application to dismissal

The FCC did not receive any correspondence from either Eymol or Regnum Group by April 21, 2008 as requested. In fact the letter that we mailed to Mr. Molina was returned by the U.S. Postal Service. While Regnum Group now informs us that Eymol provided information to the Executive Branch, neither Eymol nor Regnum Group copied the FCC on that correspondence or provided any other correspondence to the FCC by the April 21, 2008 date. Based on the failure of either the applicant or Regnum Group on behalf of the applicant to respond to the FCC, on May 14, 2008 we dismissed the application from Eymol without prejudice to re-filing.

If Eymol continues to seek international section 214 authority to provide telecommunication service, it may file a new application pursuant to the Commission's rules.
