Subject: potosi ince 214 application

Susan and Mikelle: Thank you for your help with the application. As you suggested, this email confirms that I would like to amend the application for a 214 license that I submitted on behalf of Potosi Inc. to request authority under section 63.18(e)(1) and (e)(2) for facilities based and resale services (over both private lines and switched lines).

Please let me know if I need to take any additional steps or if you need any further information.
