Subject: City of Auburn Authorization

I, Terri K. Firestein, Sr. Director for CCG Consulting, LLC affirm that as representative/consultant for City of Auburn I have permission to represent the company before the FCC and to sign all required documentation and applications as the company's legal representative.

I have been hired by the City of Auburn to obtain, among other things, a 214 International Authority on their behalf and under the terms of our consulting contract I have permission and authorization to sign documentation as a representative of the company.

Additional questions may be addressed with me on 301-842-1437.

thanks,

Terri Firestein
