Jon and Priya,

The Department of Justice has brought to our attention two more cases where it appears that a company with a pending application for section 214 authority to provide international service may already be providing service: Call Catchers, Inc. dba Freedom Voice Systems, ITC-214-20070612-00227, and STEL Communications, LLC, ITC-214-20071227-00533. Our records do not show that either of these companies have existing international section 214 authorizations.

We would appreciate it if the Enforcement Bureau could investigate this matter. Attached are the e-mail from the Department of Justice regarding these companies.

Thanks.

DK

Hello Jon and Priya--

The Department of Justice has brought to our attention a possible case of the provision of unauthorized service. We would appreciate it if the Enforcement Bureau could look into this matter.

As you may know, when an applicant has 10 percent or greater foreign ownership we refer the application to the Executive Branch for review for national security, law enforcement, foreign policy, and trade concerns. As part of their review, the Executive Branch agencies will send a questionnaire to the applicant to get further information.

Teleplus, LLC filed an application for authority under section 214 to provide international service in 2006. Because the applicant has foreign ownership, the application was referred to the Executive Branch. In its response to the Executive Branch questionnaire, Teleplus states that it has at least 1,000 customers for its pre-paid services and had revenues of \$5 million. Our contact at Justice also found a web-site for Teleplus LLC where one can purchase pre-paid calling cards. As Teleplus states in its section 214 application, it has not previously received section 214 authority, and this application is still pending.
