Re: File No. ITC-214-20070612-00227

Dear Mr. Thomas:

Our records indicate that your international 214 application (File No. ITC-214-20070612-00227) remains pending at the Commission awaiting completion of review by the Executive Branch. We forwarded the application to Executive Branch agencies on June 15, 2007. You should have been contacted by the Executive Branch requesting information about your application and provided to them all necessary and requested information. Please inform us no later than April 21, 2008 of the status of the application in the Executive Branch review process and confirm that you continue to seek Commission action on the application.

Failure to respond to this information request will subject your application to dismissal without prejudice under Sections 1.748(a) and 63.51(b) of the Commission's Rules, 47 CFR §§ 1.748(a), 63.51(b). Thank you.

Sincerely,

James L. Ball

I. If John Chiplin of Newstar Ventures Ltd. and Jim Schumacher of Anita Barbara Schwalbe Trust are not the respective 100% owners of those two entities, then you will have to identify who are the owners of Newstar Ventures Ltd. and Anita Barbara Schwalbe Trust.

Specifically, data that would be required on each owner of those two entities:

Name: Anita Schwalbe
Citizenship: Canada
Date of birth: May 19, 1957
Place of birth (City/Province/Country): Montreal, Canada
Social security number (if applicable): 589-43-7783
Alien number (if applicable): A044493424
Passport number and issuing state: JW551933
Job location including phone number: (800) 477-1477 Ext. 86
Business address: 169 Saxony Rd., Suite 206,
Encinitas, CA 92024

Ownership% in Anita Barbara Schwalbe Trust: It's a trust, so it's not really "owned";
but she and Jim Schumacher have joint control of it.

Ownership% in Call Catchers Inc.: 18.44% - Shared with Jim Schumacher

John Chiplin is the 100% owner of Newstar Ventures, Ltd.

II. If any of the owners of Newstar Ventures Ltd. and Anita Barbara Schwalbe Trust are institutional owners as opposed to individual owners, then you would have to continue the identification process until all of the individuals that have direct and indirect ownership in Call Catchers Inc. are identified.

Questions:

1. We understand from the application that Applicant seeks authority to provide various services.

(a). Please describe:

(i) The services that are the subject of the application
The ability to make local and long distance calls from VoIP phones that are part of a Hosted PBX offering.

(ii) any other services the Applicant intends to provide that are not encompassed in the application.

We have a variety of services currently that are enhanced telco services that are not encompassed eg internet fax, virtual office, and real estate call capture services.

(b) If particular countries are the target market for Applicant's services, please list the specific countries, and state whether the Applicant has present or future plans to offer service to any other countries not listed.

Currently we intend to offer services described in 1, a, i to the US – 48 contiguous states, AK, HI, PR and US Virgin Islands.

2. With regard to each of the services to be offered by the Applicant, please describe in a general way the manner in which such services will be delivered (from a technical standpoint), including how voice and data will flow into and out of your infrastructure, whether owned or leased.

- a) For those entities operating physical telecommunications infrastructure, whether owned or leased, please include, to the extent relevant:
 - i) a description of the Applicant's network equipment and infrastructure, (e.g., switches, routers, other equipment, fiber routes);
 - ii) a network map
 - iii) an explanation of what parts of the infrastructure are owned or leased;
 - iv) collocation sites;
 - v) interconnecting carriers and/or peering relationships; and
 - vi) service coverage areas.

All equipment is owned. None of our equipment is leased. All of our equipment is collocated at Castle Access in San Diego, connected to a Cisco Catalyst 6509 switch which we own. We are connected with our customers and providers across the public internet, our connection to which is fully managed by our collocation facility.

Each customer will have a phone or other device (the Device) which is connected to the public internet. Each Device will have at least one distinct Direct Inward Dial (DID) telephone-number, so it can be specifically reached from the PSTN. The Device will register with our central registration server (the Registrar) in order to authenticate itself to send and receive calls through our service. All audio and call setup information for every customer call will pass through our servers via the Registrar. Every call will send its

audio stream through our servers, which are redundant PC-based servers running Asterisk on Linux.

PSTN calls currently are terminated through NobelBiz across the public internet in SIP/G.711u format. We have a direct PRI connection to the Freedom VOICE IVR system, and calls between that system and our Customers will use those PRI channels instead of the PSTN.

We have origination agreements with both NobelBiz and XO to originate local numbers nation-wide, with those numbers being used as the DIDs for our customers' Devices. All PSTN call origination arrives over the public internet in SIP/G.711u format from our providers. Our Customers' Devices will communicate with us via SIP using one of several audio encodings (G.711, G.726, G.729, GSM, others) depending on their bandwidth limitations. All calls, including audio, between two Customer Devices will pass from the originating Device, through our servers, to the terminating Device.

b) State if the Applicant does not own or lease physical telecommunications infrastructure, whether the applicant is wholly or partly a reseller of others' services, whose services the applicant resells, and the nature of all resale services.

3. Do the services or facilities under the Applicant's control afford direct access to the public switched telephone network (PSTN)?
Yes through the hosted PBX service we will be offering we will allow customers to send and receive calls to and from the PSTN via premise equipment associated with the service.

Do the services or facilities under the Applicant's control afford direct access to the Internet?

Most customers will not need internet connection from us at this stage but in the future we may offer data connection as part of a bundle with the hosted PBX service. In that case we will resell data connection from a licensed carrier.

4. What is the extent of involvement and/or control by foreign (non-U.S. citizens or non-U.S. country of organization) individuals, governments, or other entities in each of the following activities:
- (a) exercising voting or other ownership rights of the Applicant: voting rights
 - (b) overall corporate policy decisions of the Applicant; advisory
 - (c) responding to requests or compulsory process from U.S. law enforcement or other U.S. government agencies; Not involved
 - (d) operation of the Applicant's day to day business? Not involved

To what extent will that involvement or control change, if at all, when the application is granted? No change

5. (a) Can any of the Applicant's communications network facilities, equipment, or data (including customer billing or call detail records) be accessed or controlled from outside the United States, or by foreign persons (non-U.S. citizens) within the United States?
No

(b) If so, please provide the names, job locations, and country of origin of any foreign persons (non-U.S. citizens) authorized to exercise such access or control.
N/A

6. What types of customers is the Applicant targeting – residential consumers, carriers, enterprise or corporate customers, government agencies?
Home business, very small (<10 people) and small business.

Can the Applicant provide a rough estimate of how each category is expected to break down, in terms of percentages of either revenue or customer "headcount"?
Currently 90+ is home business but with the hosted PBX and the services described under 1, a, i it should change to mostly be very small businesses.

7. Please identify any customers of the Applicant that are U.S. federal, state, or local government agencies, the nature of the services provided under each contract, and whether the contract is classified. We have some gov't agencies eg Air Force Reserve and Coast Guard using our enhanced telco services. None are classified to my knowledge.

The above referenced applications were placed on Public Notice on June 22, 2007 for streamlined processing. Since the Public Notice was released, the Commission has been requested by the Executive Branch agencies of the United States that we remove the subject applications from streamlined processing because of foreign ownership issues. Therefore, pursuant to Section 63.12(c)(3) of the Commission's Rules, we have removed these applications from streamlined processing.

Please be advised that your company may not commence operations until the Section 214 authorization is granted. See Section 63.12(d) of the rules, 47 C.F.R. Section 63.12(d). The Executive Branch will contact you or the "Contact" listed on your application directly for further information. You can be assured that your application will be processed expeditiously upon completion of Executive Branch's review. We will notify you by e-mail when your application is granted.

The Public Notice Report No. TEL-01166S (released July 6, 2007), is attached. If you have any questions, please email: Mikelle.Morra@fcc.gov, JoAnn.Ekblad@fcc.gov, Susan.Oconnell@fcc.gov, David.Krech@fcc.gov, and George.Li@fcc.gov or fax to 202-418-2824.

Subject: RE: [TT] FW: Pending Section 214 Applications

Mikelle:

Per your e-mail below, FCC sent letters to ten applicants notifying them that they must advise FCC on the status of their applications with the Executive Branch agencies. I believe the deadline expired on March 18 – can we expect some (if not all) of these applications to be dismissed via public notice in the near future?

Also, according to our records, **the Executive Branch agencies have not received responses from several other applicants** – would FCC be willing to send similar letters to the below listed applicants? It would be helpful for us to be able to clear our docket of these relatively older, non-responsive applications:

Subject: RE: [TT] FW: Pending Section 214 Applications

Mikelle:

Per your e-mail below, FCC sent letters to ten applicants notifying them that they must advise FCC on the status of their applications with the Executive Branch agencies. I believe the deadline expired on March 18 – can we expect some (if not all) of these applications to be dismissed via public notice in the near future?

Also, according to our records, the Executive Branch agencies have not received responses from several other applicants – would FCC be willing to send similar letters to the below listed applicants? It would be helpful for us to be able to clear our docket of these relatively older, non-responsive applications:

BT Fifty-Three Limited	ITC-214-20060404-00180
VoiceGlobal, Inc.	ITC-214-20060601-00296
Metropy Global Networks, LLC	ITC-214-20060601-00297
iLink3 PAKISTAN (PVT) LIMITED	ITC-214-20060711-00339
Vistula USA, Inc.	ITC-214-20060804-00379
MultitASP Corp. d/b/a nurcambles.com	ITC-214-20060809-00382
Voicesat, LLC	ITC-214-20060810-00383
Broadband System Group, Inc.	ITC-214-20060815-00390
Broadband Solution Communication Inc. d/b/a BSCComm	ITC-214-20060815-00392
Color Phone	ITC-214-20060816-00398
Eymol Corp. d/b/a Voinline Telecommunications Group	ITC-214-20061013-00470
Ouro Preto Inc.	ITC-214-20061120-00526
ABH Communications. Corp.	ITC-214-20061212-00552
Morris Pacific Telecommunications	ITC-214-20070207-00058
New World Brands Inc	ITC-214-20070226-00086
Nonamtel Corporation	ITC-214-20070316-00112
Netvox Corp.	ITC-214-20070423-00154
Call Catchers Inc.	ITC-214-20070612-00227

Thanks – please call me if you have any questions or concerns.

Subject: Pending Section 214 Applications

Joanne, Alex & Jon,

This email is to inform you that we have sent the attached letters to the companies below. The applications are currently in review with the Executive Branch. These applications are over two years old and still pending before the Commission. We will begin the dismissal process if we do not hear back from these companies by March 18, 2008.

ITC-214-20041210-00480	United Telecommunication Services, Inc. dba UTS
ITC-214-20050815-00323	Unified Communications, Inc.
ITC-214-20050822-00339	Syner IP Telecom, LLC
ITC-214-20050831-00359	Harris Telecommunications Corp.
ITC-214-20050923-00379	GeoNet Communications Group, Inc.
ITC-214-20051028-00439	Centelon Corporation
ITC-214-20060131-00069	Talk IP, LLC
ITC-214-20060213-00093	Budget Telecomm, Inc.
ITC-214-20060217-00098	Bridge Water Telecom LLC
ITC-214-20060217-00099	Teleplus, LLC

Thank you,
