

FCC International Section 214 Application
Amended Attachment 1

W. Stephen Cannon, Management Trustee of the AT&T/Dobson merger Trust Markets (the "Trustee"), hereby requests authority under Section 214 of the Act to provide international services on a global resale basis.

As a condition to its recent approval of the merger of Dobson Communications Corporation ("Dobson") and AT&T Inc. ("AT&T"), the Commission required that Dobson and AT&T transfer day-to-day control over certain assets and spectrum holdings in four cellular market areas (the "Trust Markets") to the Management Trustee pending divestiture of those assets.¹ Three of the cellular markets were already subject to divestiture as a condition of the Department of Justice's approval of the proposed merger.² Dobson and AT&T entered into short-term, *de facto* transfer spectrum leasing arrangement with the Management Trustee for the cellular, PCS, and AWS spectrum in the four markets, and the Commission has approved those lease applications.³ The AT&T/Dobson transaction was consummated on November 16, 2007.

Pursuant to the Preservation of Assets Stipulation and Order ("Stipulation and Order") signed by AT&T, Dobson, and the United States and entered by the U.S. District Court for the District of Columbia, the court approved the appointment of W. Stephen Cannon as the Management Trustee of the Trust Markets. AT&T and the Trustee have entered into a Management Trustee Agreement, as required by the Stipulation and Order, the terms of which will govern the Lessee's management of the assets which ultimately will be divested by AT&T. The leasing arrangement enables the Trustee to exercise *de facto* control over the spectrum on which these assets operate while awaiting divestiture. The Commission has approved the Trustee as the Management Trustee, the terms of the Management Trustee Agreement, and the Trustee's spectrum lease applications.

In the course of reviewing the Trust Markets' regulatory compliance, the Trustee was advised by counsel that despite AT&T's *de jure* control over the assets and spectrum holdings, the Trustee may need his own international Section 214 authorization due to his actual operational control over the Trust Markets pursuant to the *de facto* transfer leases.⁴ Therefore, out of an abundance of caution, the Trustee hereby requests that the Commission expeditiously grant it Section 214 authority to provide international services on a global resale basis.

⁴ Dobson's International Section 214 authorization was transferred to AT&T and the Commission approved such transfer.

Attachment 2

Response to FCC International Section 214 Application, Item 9 – Streamlined Processing.

The Trustee respectfully requests streamlined processing of this application pursuant to Section 63.12 of the Commission's rules. 47 C.F.R. §63.12. This application qualifies for streamlined processing for the following reasons: (1) the Trustee is not affiliated with a foreign carrier on any route for which authority is sought; (2) the Trustee is not affiliated with any dominant U.S. carrier whose international switched or private lines services it seeks to resell; and (3) the Trustee is not requesting authority to provide switched service over private lines to countries not previously authorized for service by the Commission.
