

Federal Communications Commission  
Washington, D.C. 20554

May 14, 2014

Mr. Salomon Doumith  
Teledome Building, Old Parham Road  
St. Johns, Antigua and Barbuda

Dear Mr. Doumith,

We forward for response, the attached letter submitted by the Department of Justice, with the concurrence of the Department of Homeland Security (collectively the "Agencies") requesting the FCC to terminate, declare null and void and no longer on effect and/or revoke the current authorization issued to ACT Telecommunications Inc. ("ACT") under file number **ITC-214-20081201-00519**. The Agencies allege that ACT has failed to comply with commitments and undertakings with the Agencies to which ACT agreed, and compliance with which are a condition to the authorization.<sup>1</sup> The Agencies further state that ACT has failed to respond to inquiries from them.

We request that ACT respond to the Agencies allegations within 30 days from the date of this letter (June 13, 2014). Please describe in your response, any steps that you are taking or will take with the Agencies to resolve their concerns. If ACT no longer provides services under its authorization, and does not intend to do so in the future, please indicate whether it is surrendering the authorization. A failure to respond to this letter will be deemed an admission of the facts alleged by the Agencies and could result in the issuance of an order to show cause as to why ACT's section 214 authorization should not be subject to termination.

We are addressing this letter to most recent contact and address of record provided by ACT. Carriers with international section 214 authorizations are responsible for the continuing accuracy of the information provided to the Commission in its application and must promptly file corrected information where the certification is no longer accurate.<sup>2</sup>

Sincerely,

  
James L. Ball  
Chief, Policy Division  
International Bureau
